Reserve Forces Combat Mission Faces Revamping, Congress Gets Word In "Closed Door" Testimony

CONGRESS has jumped the gun on the "crash" Reserve Forces study ordered at the Pentagon by Secretary of Defense Robert S. McNamara with a 1 April deadline.

Not waiting for completion of this

task force report, the House Appropriations Committee has been interrogating Defense officials and Reserve Forces leaders in executive sessions concerning future strengths and roles and missions for the National Guard and Reserve.

Capitol Hill sources told THE JOURNAL this week that some Reserve Forces officials have expressed alarm because of rumors that the Pentagon study will propose a drastic change in the roles and missions of the Guard and Reserve.

It is known that the Reserve Forces Task Force, led by Assistant Secretary Carlisle P. Runge, has been reviewing

proposals, frequently presented in the past, that the Reserve Forces be given much greater responsibilities in the field of civil defense. This would mean less emphasis on training for combat assign-

Space Action

(AF Reorganization, Pages 11, 32)

AS Secretary of Defense McNamara prepared to issue a new space directive on reconnaissance satellites and related missions, Deputy Secretary Roswell L. Gilpatric (Page 16) was testifying before the House Science and Astronautics Committee on the controversial directive (THE JOURNAL 18 March) which assigns virtually all Space R&D to the Air Force.

The R&D Directive prompted the House Committee to seek testimony from all the Services, one highlight of which was the appearance of Lt. Gen. Arthur G. Trudeau, Army R&D Chief (Page 3).

Confirmation for THE JOURNAL's report last week that Members of Congress would demand to know if the Service Chiefs are receiving an adequate voice in Pentagon decisions came this week. Representative Ford (R-Mich), who is the ranking Republican member of the House Military Appropriations Subcommittee, charged the Pentagon with "distorting" a letter from General Lyman L. Lemnitzer, JCS Chairman, to Secretary McNamara concerning the R&D order. (Page 9).

More Time For Chiefs: One Week Set For Space R&D Comments; General Lemnitzer Gets 10 Days For Service Recon Satellite Study

GENERAL Lyman L. Lemnitzer, JCS Chairman, has been told that "considerable overlap, duplication and confusion exists, at present, among the Services in the research, development and operational activities in the fields of reconnaissance, mapping and geodesy."

He has been advised by Deputy Secretary of Defense Roswell L. Gilpatric just what Secretary Robert S. McNamara proposes to do about it in a memorandum, dated 8 March, which concludes:

"Since the solution to the problem is a matter of urgency, I would appreciate comments or recommendations on the above within 10 days."

This was six days after the deadline for JCS comments on another proposed directive, subsequently issued, which gives the Air Force responsibility for Space R&D, except in "unusual circumstances."

As was reported in last week's issue of THE JOURNAL, and confirmed in testimony on Capitol Hill, General Lemnitzer was given only one week for this task. As a result, he advised Secretary McNamara that the views he stated were "personal opinions" because time precluded "a development of a view by the Joint Chiefs of Staff."

It is not known whether General Lemnitzer was able to

obtain a JCS view or again was limited to his "personal opinions" in reporting to civilian superiors on the new space proposals.

Deputy Secretary Gilpatric, in seeking comments or recommendations from the JCS Chairman, said that "in order to clarify assignments and responsibilities and to eliminate unnecessary conflict," assignment of research, development and operations, within DoD, would be in four areas:

Reconnaissance Satellites
Geodetic Controls and Mapping Production
Mapping and Geodetic Satellites
Mapping and Geodetic Systems Other Than Satellites

As to Operational Priorities, it was stated that "the operational acquisition of geodetic and reconnaissance data and mapping information will be carried out under the broad priorities established by the Joint Chiefs of Staff."

Here is what is planned for the four areas in the proposed directive:

Reconnaissance Satellites—The Air Force will be responsible for R&D and operation, including payload design, guidance, control and recovery of all DoD reconnaissance satellite systems. The Air Force also is charged with R&D of all

—Continued on page 6

Army Will Test "Big Wheel" Missile Launcher; Hercules Is Mounted On "Goer"

(Photo, Page 29)

THE Army is getting set at White Sands, N. M., to test the use of a big-wheeled Goer transport as a launcher for a Hercules nuclear capable missile. If the test is successful, it will pave the way for dramatic developments in missile mobility.

Pentagon officials decline to discuss details of the forthcoming test, but it is known that the Navy has expressed interest in it because of the possible adaptation of the Goer vehicles for use with a land-based Polaris system, such as proposed for NATO.

At their own expense, the Douglas Aircraft Company, in conjunction with

the Western Electric Company and the Bell Telephone Laboratories, major members of the Nike Hercules team, have modified a Goer vehicle for use as a Hercules launcher. "Dry run" tests have demonstrated that the vehicle can be shifted from a travel to a firing mode in much less than 10 minutes.

The outcome of the Hercules launching from the Goer at White Sands will be a major factor in the Army's determination as to whether or not it should fund research and development on the application of the Goer concept to the Hercules and other complex weapon systems.

(Next week's issue of THE JOURNAL will feature a report on the Goer Program—now reported ready to roll.)

JOURNAL HIGHLIGHTS

President Kennedy Will Propose "Conflict" Changes; Budget Action

PRESIDENT Kennedy will propose changes in "conflict-of-interest" and dual employment legislation (Page 13). Such action has been discussed for years, but concrete proposals now appear in the offing. A Marine retired lieutenant general has been told by the Comptroller General about restrictions on his employment (Page 27).

The House Appropriations Committee has released (Page 7) the first testimony on the fiscal '62 budget.

Other highlights: The Air Force is hopeful it will be given increased responsibilities in Space Medicine R&D, and the Army and Navy are equally hopeful their research programs in this field will not be hurt (Page 3).

Secretary McNamara has 92 projects to which he has assigned priorities (Page 14).

The Air Force has received in its operational inventory the new super-sonic Talon T-38 (Page 27).

DoD Orders Service Silence On Bolté Report Reactions

(Pentagon Censorship Editorial, Page 12)

DEPUTY Secretary of Defense Roswell L. Gilpatric has ordered the Services to withhold all information concerning their reactions to the Bolté Report. His directive, which itself was withheld, takes the position, according to a Pentagon spokesman, that "since the

Committee's deliberations will result in a legislative proposal, Service views should not be aired in line with the policy of refraining from discussion of proposed legislation until it has gone to Capitol Hill."

The Services presented their detailed comments in response to an order from former Secretary of Defense Gates, to whom the Committee of senior retired officers from all the Services, headed by General Charles L. Bolté, USA-Ret., submitted proposals for revision of career officer personnel legislation.

It was immediately evident that the Bolté Report would provoke controversy in the Services. This is now confirmed with the decision to muffle Service comment about it.

Despite Deputy Secretary Gilpatric's "hush hush" order on matters such as selection board procedures, promotion policies and retirement benefit changes, it can be reported authoritatively that the Services have taken the following stands:

ARMY—Faced with the prospective loss of 249 lieutenant colonels and more than

—Continued on page 9

Reserve Forces Combat Mission Faces Revamping

From first page—
ments overseas.

The National Guard Association and the Reserve Officers Association have not been invited to present their points of view to the Runge Task Force, the existence of which was revealed in last week's issue of THE JOURNAL.

On Capitol Hill, NGA and ROA leaders have called upon members of the House and Senate Armed Services and Appropriations committees to block the proposal in the Eisenhower Defense Budget calling for a 10% cut in Reserve Forces strength.

The ROA at its recent meeting in Washington, D. C., took an entirely dif-

ferent approach to the manpower program. A resolution called for a buildup of the Reserve to a paid drill status of 400,000, which is 100,000 more than the present ceiling.

The National Guard is fighting to maintain its present 400,000 strength, and to win approval from Congress for action which would fix this as a permanent floor strength.

There are reports that President Kennedy, on the basis of recommendations from Secretary McNamara, will advocate an increase in Reserve Forces levels above those proposed by the Eisenhower

Administration. But the NGA and ROA, left out of the current Pentagon studies, have no assurance that this will be the outcome.

So, at the call of the Appropriations Committees, their leaders have taken the advantage of Congressional hearings to present an offensive to maintain present levels, preserve historic roles and missions, and, if possible, to win approval for increased drill pay support.

At the Pentagon, officials would say nothing about the work of the Runge Task Force beyond that it exists and will report by 1 April.

M/G Johnson Goes To Region Command

Maj. Gen. Dwight B. Johnson will command the 4th Region Army Air Defense Command. He will be the senior Army air defense officer in a 21-state area.

General Johnson will replace Col. Walter F. Ellis, who has held the post since September 1959. Colonel Ellis retires in July.

General Johnson will be the first general officer to command 4th Region. The post was elevated to a two-star slot late in 1960 as a result of the increased number of Hercules missile units in 4th Region. Other air defense regions earlier had been authorized a general officer.

War College Students Get Word On Zeus

LT. Gen. Robert J. Wood (right), CG of the Army Air Defense Command, Colorado Springs, and Maj. Gen. Thomas W. Dunn, Commandant of the Army War College, examine a model of the Nike Zeus, the anti-missile missile. General Wood spoke to the faculty and students of the Army's senior school last week on "Air Defense of North America." He has been calling for the start of production on the anti-missile missile, and has warned of the danger if the Soviets could develop such a system first.

SAC Missile Unit Wins Competition

The 1st Missile Division, 3970th Combat Support Group and F. E. Warren AFB, Wyo., are winners of the SAC IPT (individual proficiency training) Achievement Awards for 1960.

Maj. Gen. William K. Martin, SAC Director of Personnel, announced the winners in the base, group and wing categories in March after the scores from all SAC units had been compiled and checked.

The 1st Missile Division, Vandenberg AFB, Calif., commanded by Maj. Gen. David Wade, annexed the "Top Wing" award with a score of 765.

The 3970th Combat Support Group, Torrejon AB, Spain, commanded by Col. James M. Smith, compiled a top score of 767 points to win the "Top Group" IPT award.

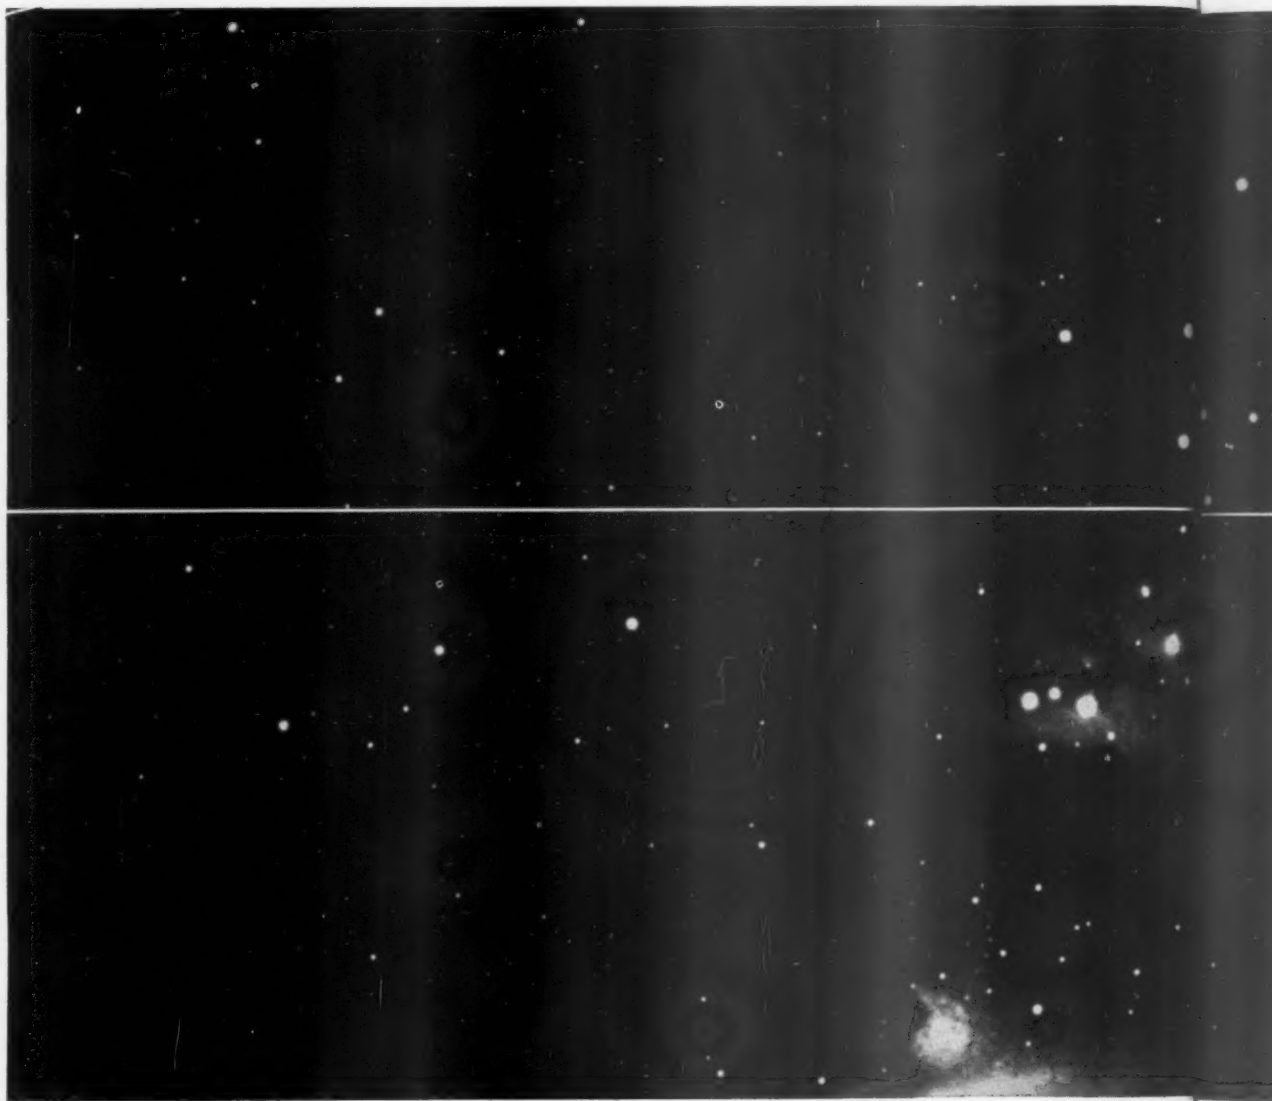

F. E. Warren AFB, Wyo., commanded by Col. Jerrold M. Vivian, won the "Top Base" IPT Achievement Award with a score of 728.

Maximum possible score in the three categories was 900.

New Navy Astronautics Chief

RAdm. Frederick V. Hilles, will relieve RAdm. Thomas F. Connolly, as Assistant Chief of the Bureau of Naval Weapons for Pacific Missile Range and Astronautics in June.

Admiral Hilles, Commander, Destroyer Flotilla Four, will be relieved by RAdm. John L. Chew.

This is Colidar—a dramatically new kind of radar for satellites and other space vehicles.

Unlike conventional radar, which "sees" with microwaves, the Hughes-developed Colidar probes with incredibly narrow, high-intensity beams of light.

The secret is a new kind of light. *Coherent light*. This is a projection of electromagnetic energy at a precise frequency—100,000 times higher than conventional radar frequencies.

This high concentration of energy into a narrow beam gives Colidar amazing powers of discrimination—and makes possible ranges far beyond the abilities of present-day radar.

In orbit, a Colidar-equipped satellite could survey vast areas of space—tracking other satellites, space vehicles and other objects. Add this to Colidar's small size, light weight and low power needs, and the result is the most practical radar for use in space.

Army R&D Chief Trudeau Testifies On Space Directive, Then Writes A Letter

THE disclosure that General Lyman L. Lemnitzer, JCS Chairman, had written a confidential memorandum to Secretary of Defense McNamara (THE JOURNAL 18 March) that the Service Chiefs had lacked adequate time to study the Space R&D directive as a group was followed immediately by hearings of the House Science and Astronautics Committee.

Deputy Secretary of Defense Roswell L. Gilpatric explained the background of the decision process; his remarks are reported in full text on Page 16.

Secretary of the Air Force Eugene

Zuckert and General Thomas D. White, Air Force CofS, emphasized that the Air Force would give full support to Army and Navy space requirements.

Secretary of the Navy John B. Connally said he had opposed the directive, but added that he had been assured by Secretary McNamara that the Navy's "abilities and capabilities to perform its naval missions" would be safeguarded.

Secretary of the Army Elvis J. Stahr, Jr., took a similar tack in his testimony. He said he was "not jumping and cheering" over the new directive, but said he thought the new plan could be made

to work satisfactorily.

Secretary Stahr told the Committee: "I assure you that if the Army's proper interests in space technology are at any time not being adequately recognized or served, Secretary McNamara will hear from us loud and clear."

It was the testimony of Lt. Gen. Arthur G. Trudeau, the blunt-speaking Army R&D Chief, which created the major fireworks at the hearings.

General Trudeau described at some length Army capabilities and needs in the space field.

Then, Representative Victor L. Anfuso

(D-NY) posed a question that shook the Pentagon, and possibly the White House too. It went like this:

Representative Anfuso: "May I ask this question of either you, Mr. Secretary, or General Trudeau, for whom I have the highest respect and admiration. . . . If you had had it in your power to propose the directive that we are talking about, would you have made such a proposal?"

General Trudeau: "No I didn't make such a proposal. My proposal was on the record here."

Mr. Anfuso: "Would you have made such a proposal?"

General Trudeau: "No sir, but I accept it. We read every day about how fortunate we are to have the civilian competency which is being brought into the Government, and as a simple military man I accept these profound decisions as being made in great wisdom."

General Trudeau appeared before the Committee on 20 March. At 2:30 on the afternoon of 21 March, the Defense Department released an announcement which said that General Trudeau "has stated in a letter to the Secretary of the Army that he had no intention to criticize high government officials in his testimony before the House Science and Astronautics Committee on Monday, 20 March, and has requested that this letter be made a part of the record of his testimony."

General Trudeau wrote Secretary Stahr and sent a copy to General George H. Decker, Army CofS:

"I am deeply disturbed that a sentence in my testimony before the House Science and Astronautics Committee yesterday, gave the impression that I intended to criticize my civilian superiors.

"I want to assure you and Secretary McNamara that there was no intention to criticize high government officials despite the impression the remark gives taken out of context with the balance of my testimony and the atmosphere that then pervaded the committee room.

"I don't believe anyone who reads the testimony can challenge the fact that we have clearly expressed our intent to loyally execute the directive on military space responsibilities, despite our earlier expressed desire for a different approach.

"I hope no further accent will be placed on the sentence in question and trust you and the Secretary of Defense will accept my explanation at face value."

There were those with a background of knowledge as to how such letters get written at the Pentagon—who speculated that the Trudeau letter might not be entirely unrelated to Secretary McNamara's expressed view that disputation by subordinates is to be encouraged up to the moment of decision, but after that point is reached, it must stop, or someone must go.

Medical Space Decision Due

SECRETARY of Defense McNamara and Dr. Herbert F. York, Director of Defense Research and Engineering, soon will decide whether to concentrate space medical research in the Air Force.

Such a decision would be a major disappointment to the Army and Navy, which have strong research projects in space and space-related fields.

The Air Force is hopeful that Secretary McNamara's decision (THE JOURNAL 11 March) to place virtually all future space R&D systems under the Air Force will be extended to include aerospace medicine.

Maj. Gen. O. K. Niess, Air Force Surgeon General, shortly after Secretary McNamara's decision was announced, went on record at a news conference with the statement that his Service is ready, willing, and able to support any space efforts, manned or unmanned, of the Defense Department.

The Air Force is known to be anxious about NASA plans to establish their own

—Continued on page 26

probes with slivers of light

into electronics is our business. Developing new kinds of radar is but one facet of Hughes' many activities. Hughes is today building one of the first vehicles which will land on the moon, semiconductors no larger than the head of a pin and computer-controlled industrial machine tools.

Perhaps you have a problem for which 5,000 engineers and scientists can apply a solution. It may be an opportunity for both of us.

Creating a new world with electronics

Guard Completes Nike Missile Conversion

The 82 Army National Guard anti-aircraft batteries on 24-hour alert as part of the active Army Air Defense Command have completed conversion from guns to Nike missiles.

There are 76 Nike Ajax batteries in the continental U. S. and six Nike Hercules missile batteries in Hawaii.

Last of the artillery units to complete its conversion was B Battery, 1st Battalion, of the Wisconsin National Guard's 126th Artillery, at Milwaukee.

Conversion from guns to Nike Ajax was started in 1957. California's 720th AAA Missile Battalion, went on-site in the Los Angeles area in September 1958

after extensive training at Ft. Bliss, Tex. Since redesignated as the 4th Missile Battalion, 251st Artillery, this unit last month was designated as the top Army National Guard air defense unit for 1960 and received ARADCOM's commander's trophy.

The Army National Guard has approximately 15,000 officers and men assigned to air defense missile units, including 4,200 full-time technicians.

In addition to the 82 batteries on 24-hour alert, the Army National Guard has 45 batteries in an armory training status.

Father Roach Heads Military College Assn

The Rev. John R. Roach, Director of St. Thomas Military Academy in St. Paul, Minn., is the new President of the Association of Military Colleges and Schools.

He is the first representative of a Catholic school to be elected to the presidency of the association in its 45-year history.

Now that superior service counts,

ask for the mover you can trust!

New "no mess" way to pack your china and glassware is Kleen Pack. Each item individually wrapped and placed in its own compartment. Safe as in your own cupboard.

Clothing arrives fresh, clean, wrinkle-free, thanks to Allied's roomy, dust-proof wardrobes. Portable wardrobes were developed by Allied to make a difficult moving job easy.

Here's how we protect your TV, hi-fi set and record collection from shocks and bumps. Cabinets are wrapped in thick padding. Records go in special shock-proof carton.

There's good news for servicemen in the new official directives about moving. Today, when you're ordered to a new location, your Transportation Officer welcomes your request for the moving company you want.

Be sure to discuss your preference with him.

And remember this: among families who have been moved by Allied Van Lines, nine out of ten choose Allied again. Your Transportation Officer is well acquainted with Allied's world-wide services . . . and knows that Allied's moving services meet or surpass all government requirements.

So ask for the best. Ask for Allied.

Secretary Seeks Recon And Mapping Satellite Comments

From first page—

instrumentation and equipment for processing reconnaissance data from satellite sources.

Geodetic Controls and Mapping Production—The Army is given responsibility for establishment and management of a single geodetic and mapping program to meet the requirements of all Services and DoD. This will include establishment and maintenance of a world-wide master geodetic control system and library and production and dissemination of geodetic data collection program under broad priorities of the JCS.

The Navy and Air Force will be responsible for "exploitation of the basic information provided by the Army to meet their unique Service requirements."

Mapping and Geodetic Satellites—The Army will be responsible for development of mapping and geodetic satellite payloads and the operational coverage required of such payloads to satisfy its overall data collection program. The Army also will be responsible for R&D and operation of all systems for processing and reduction of raw data accruing from geodetic and mapping satellites.

The Air Force will be assigned responsibility for R&D of

all geodetic satellite systems, exclusive of data processing, to meet detailed requirements established by the Army. The Air Force will operate geodetic satellite systems, exclusive of data processing, to meet Army schedules and coverage requirements.

The Air Force will deliver collected raw data from such satellite systems to the Army for processing.

Mapping and Geodetic Systems Other Than Satellites—Here, all three Services are assigned tasks.

The Air Force is responsible for R&D and operation of all photography and geodetic systems, excluding data processing, requiring manned high performance aircraft, in accordance with the requirements and schedule provided by the Army.

The Army will be responsible for R&D and operation of ground based mapping and geodetic systems, including components carried abroad, instrumental probes and non-geodetic satellite systems, and data processing and data reduction instrumentation and equipment.

The Navy will be responsible for R&D and operation of ship and submarine-borne geodetic equipment and, as appropriate, will provide Army collected data in accordance with the requirements established by the Army geodetic program.

Services Reveal Pay Plans And Delays In Capitol Budget Testimony

THE four Services, in budget testimony on Capitol Hill, have outlined their fiscal '62 plans and hopes for accrual flight pay, officer responsibility pay, proficiency flying, proficiency pay, and the enlisted "supergrade" program. Here are some of the highlights from testimony released by the House Military Appropriations Subcommittee:

Accrual Flight Pay—The changeover in Administration may delay submission of the accrual flight pay plan to Congress in time for enactment by the end of the current fiscal year. It had been hoped earlier that the plan might be adopted by April.

Proficiency Flying—Maj. Gen. E. S. Ligon, Jr., Air Force Director of Personnel Planning, says some stopgap measure is needed, pending enactment of accrual flight pay if the Air Force is to further cut flying costs in accordance with Congressional demands. He suggested that the current appropriations proviso which permits officers with 20 years' flying experience to be removed from flying requirements without loss of pay be extended to include officers with 15 or more years' flying experience. The Air Force has about 1200 officers in the 20 year category, and about 33,000 in the 15-19 year group. Those in the latter group are mostly (27,000) majors and captains.

Officer Responsibility Pay—VAdm. W. R. Smedberg, III, Chief of Naval Personnel, said he is strongly defending the concept of officer responsibility pay "for those officers who are actually in

command of ships and aircraft squadrons operating at sea." The pay, authorized for all the Services by Congress in 1958, has never been implemented.

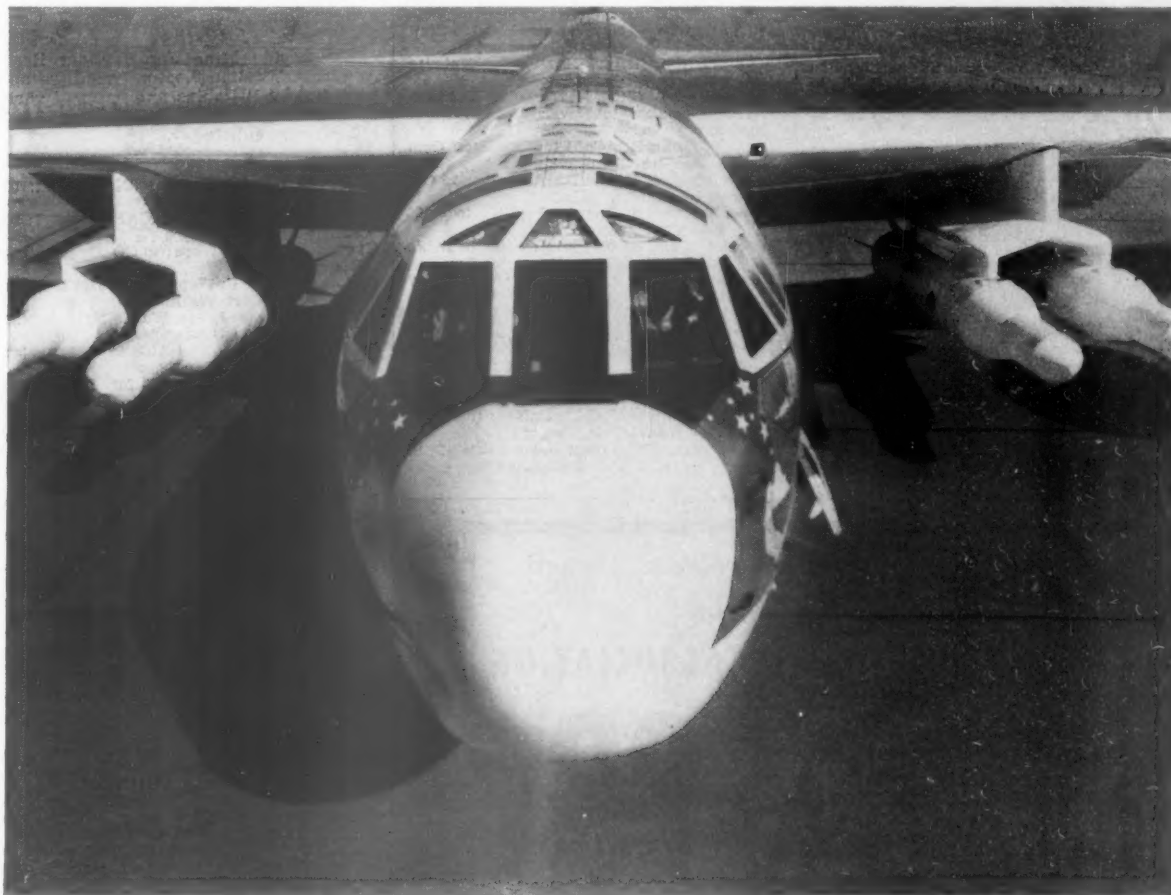

Proficiency Pay—The Defense Department has told all of the Services they cannot add any new men to the proficiency pay rolls during fiscal '62. Under the 1958 Pay Act, the number of men receiving proficiency pay was slated to be increased in annual increments. There will be no increment in fiscal '62 under the Defense Department directives.

Proficiency Pay Increases—The Air Force disclosed that it has "requested and is working with" the Defense Department on a plan to increase P-1 payments to \$50 and P-2 to \$100 "as rapidly as possible." Under the Pay Act, these are the maximums that can be paid in the two grades. Under current DoD directives, the pay is limited to \$30 for P-1 and \$60 for P-2. In the Marine Corps, the number of men receiving P-2 (520) will be doubled in fiscal '62, but as in the other Services no new P-1 ratings will be added.

Supergrades—Almost 14,000 men in the

four Services will receive promotions to pay grades E-8 and E-9 during the year starting 1 July, with almost half of the promotions going to airmen. Here is the breakdown by Services of planned promotions to the two grades:

	To E-8	To E-9
Army	2600	1340
Navy	2489	744
USAF	4250	1900
Marines	309	140
	9648	4124

MISSILE BOMBER. New "H" model is latest version of famous Boeing B-52 missile bomber, most versatile long-range weapon system in U.S. Air Force arsenal. B-52H here carries mock-ups of four Skybolt air-launch ballistic missiles. B-52s can also carry

supersonic Hound Dog missiles for in-flight launching toward distant targets. Flying high or low, B-52s will provide an almost undetectable launch pad for missiles. They can also carry regular load of gravity bombs, and strike up to five targets on single mission.

NAVAL AVIATION BIRTHDAY SALUTE

The 1 April issue of THE JOURNAL will salute the 50th anniversary of Naval Aviation.

This tribute will be highlighted by an exclusive report written by VAdm. Robert B. Pirie, Deputy Chief of Naval Operations (Air).

Air Marshal Sir Denis Visits L/G Kelly Of MATS

AIR Marshal Sir Denis H. F. Barnett, Commander of England's Royal Air Force Transport Command, visits with Lt. Gen. Joe W. Kelly, USAF. The MATS Commander accompanied the Air Marshal to Scott AFB, Ill., from Trenton, Ontario, Canada.

M/G Stoughton To 8th Army Duty

Maj. Gen. Tom R. Stoughton, Director of Programs, Office of the Deputy CofS for Personnel, will be assigned to Eighth Army, Korea, in July.

Maj. Gen. James K. Woolnough, Assistant Deputy CofS for Military Operations, Office of the Deputy CofS for Operations, also goes to Eighth Army, in August.

Brig. Gen. Robert R. Glass, CofS, U. S. Army Berlin Command, has been reassigned to the Office of the Deputy CofS for Personnel, in June.

RESEARCH STATION. Model of space research station designed by Boeing to accommodate 12 men and remain in earth orbit, serving as research station or interplanetary launch site.

SPACE CHAMBER. Boeing multi-stress chamber simulates six conditions of space travel in research to develop protective environments required for space vehicle crews. Chamber will also be used to test conditions in moon stations.

"FLYING" BOAT. Drawing of 115-foot hydrofoil craft Boeing is building for U.S. Navy. Riding out of water, hydrofoil will "fly" on underwater wings at speeds up to 45 knots. Powered by two 3000-hp gas turbine engines, craft will be the biggest hydrofoil ever built.

Minesweepers Return From Pacific Duty

Five ocean minesweepers of Pacific Mine Force returned to Long Beach, Calif. 25 March after more than six months duty with the Seventh Fleet in the Far East.

The "wooden ships" and "iron men" of Mine Division 92, commanded by Cdr. Malcolm Massie, engaged in combined exercises with ships of the Republic of Korea, Japan and Nationalist China during their deployment in the Western Pacific.

The ships and commanding officers are: Constant, LCdr. W. H. Crosby; Energy, LCdr. C. L. Sims; Pivot LCdr. R. J. Brabant; Pluck, LCdr. K. J. Christoph, jr., and Advance, LCdr. R. J. Gorton.

The Pacific Mine Force, under Rear Admiral F. Julian Becton, numbers approximately 100 ships and craft of various sizes manned by more than 3,500 officers and enlisted.

Representative Ford Hits Pentagon "Distortion" On JCS Chairman's Letter

THE ranking Republican on the House Military Appropriations Subcommittee has criticized the Pentagon for "distorting" and attempting "to gloss over the true facts" about General Lyman L. Lemnitzer's letter (THE JOURNAL, 18 March) to Secretary of Defense McNamara on the new directive assigning space responsibilities to the Air Force.

Representative Gerald R. Ford, Jr., (R-Mich) charged that a statement issued by the office of Assistant Secretary of Defense, Public Affairs, "is, to say the least, a half truth."

The OSD statement said, "The report that General Lemnitzer has protested to Secretary McNamara that the Chiefs are being bypassed or edged out of crucial military decisions by the Kennedy administration is simply without foundation."

Congressman Ford said the Assistant Secretary of Defense for Public Affairs "knew or should have known the facts and he should not now try to cover them up. General Lemnitzer as Chairman of the Joint Chiefs did submit a statement dated 2 March 1961 in opposition to the draft directive on assignment of space systems development. In General Lemnitzer's reply to the Department of Defense draft directive he stated that the Joint Chiefs did not have a full opportunity to study this matter which according to him has far-reaching military implications."

Congressman Ford added that the Public Affairs office "by semantics is seeking to deny to the public the facts: facts the public is entitled to know." The Pentagon release, he said, "is a clearcut distortion" and a "deliberate attempt to gloss over the true facts."

DoD Clamps Ban On Bolté Comments

From first page—

a score of general officer slots—the Air Force by comparison would gain 4,826 lieutenant colonels—the Army has voiced strong opposition to the Bolté Plan. As revealed in THE JOURNAL issue of 14 January, the Army says that current officer personnel programs are working satisfactorily, and that to change the rules now would cause severe morale problems.

NAVY—Secretary of Defense McNamara and Assistant Secretary Carlisle P. Runge have been told that the Navy is willing to sacrifice the "flotation" system for advancement to rear admiral upper half and its dual promotion lists provided other major benefits in the Bolté Report are adopted, including an improved grade spread with more flag officers.

AIR FORCE—The one Service that is prepared to endorse the Bolté Report virtually without change is the Air Force. Its officials have told the Defense Department that unless the Bolté concept is implemented, the Air Force will face a drought in promotions and serious morale consequences.

Little Rock Marks SAC's 15th Year

LITTLE ROCK, ARK.

DECLARING that the Strategic Air Command is not wedded to the bomber but to its mission, Lt. Gen. John P. McConnell, commander of the Second Air Force, declared here 16 March that manned aircraft will continue essential for many years to come.

General McConnell spoke at ceremonies sponsored by Downtown Little Rock Unlimited in commemoration of the fifteenth anniversary of SAC.

A Martin Titan I missile was placed on exhibition to show the citizens the type of ICBMs soon to be stationed in this area. Eighteen underground silos for the Titan II ICBM will be built in central Arkansas.

Present for the ceremonies were George Smith, general manager of The Martin Company's Denver Division, which manufactures the Titan, R. W. Walko, manager of Titan Base Information, Senator J. W. Fullbright and Representative Dale Alford of Arkansas.

General McConnell said that SAC would be foolhardy to discard manned bombers, pointing out that it now has the Mach 2 Convair B-58 and is looking forward to the Mach 3 North American B-70.

WHERE WOULD YOU LIKE TO LIVE?

Major company has openings in most areas of U. S. for men of executive ability. If you are an officer, regular or reservist, and are looking for a permanent position with highest earning potential when you leave the service, write us. We will finance you while you train. Write Box 246, The Journal.

Today's SERGEANT ranks with the toughest

After some two-score highly successful test firings, the U. S. Army's SERGEANT guided ballistic missile ranks with the toughest and most dependable "sergeants" of history. This "missile behind the man" with its great mobility and swift ability to concentrate massive firepower when and where needed, will provide powerful support to the modern Field Army.

Developed by Jet Propulsion Laboratory, under the direction of the Army Ordnance Missile Command and pro-

duced and managed by Sperry Utah, this 85-mile range inertially-guided surface-to-surface missile has met the most exacting design goals of the military. Solid-rocket propelled, it approaches conventional artillery in speed of emplacement and displacement. Its highly precise, inertial guidance system is completely self-contained, requires no external control, is invulnerable to any known countermeasures.

Now being geared for full scale pro-

duction at Sperry's Salt Lake City facility... built and packaged for the roughest handling and environments... SERGEANT, when operational, will add formidably to our Nation's arsenal of firepower.

SPERRY
UTAH

(We invite your inquiry regarding the outstanding opportunities available with the Sperry-Sergeant missile team.)

AF Warrant Boards Will Meet In May

A central selection board will convene at Headquarters USAF 8 May to select active duty warrant officers for temporary promotion to W-3 and W-4.

Warrant officers who will complete four years in grade on or before 30 June, 1962, are eligible for selection.

Two categories of warrant officers are ineligible:

(1) Those who are deferred from permanent promotion, or whose names have been removed from a recommended list for permanent promotion;

(2) Those who have an established date of separation, retirement, or release from active duty that is within two years of the convening of the selection board.

It usually takes the board about 60 days after meeting to compile its findings into a promotion selection list. This means public announcement of the selections about early July.

Reading, John A., jr, Hq ARDC, Andrews AFB.

Holland, William J., 6175th Sprrt Sq, PacAF, APO 64, SF.

TAC'S M/G McNICKLE GETS AMC DUTY; HE WILL CONTROL A \$12 BILLION INVENTORY

MAJ. GEN. Marvin L. McNickle, TAC Director of Materiel at Langley AFB, Va., will become AMC Director of Supply under General S. E. Anderson at Wright-Patterson AFB, Ohio.

General McNickle succeeds Maj. Gen. Frank A. Bogart, who becomes Acting Comptroller of the Air Force on 1 April. Until General McNickle arrives, Brig. Gen. R. C. Rockwood, AMC's Deputy Director of Supply, will be Acting Director.

General McNickle will have responsibility for operating a world-wide system equipped to furnish 1.7 million different kinds of items to any Air Force activity in the world. AMC's supply is the warehouse of the entire Air Force.

There are nearly six billion supply items scattered throughout the world at Air Force installations. They range from small screws to airplane wings. Their original cost was about \$12 billion.

The Director of Supply also controls AMC's cataloging program, involving 1,700,000 Federal stock members and 2,500,000 manufacturers' part numbers.

Shift Of Generals, Changes In Air Staff, Secretariat, Will Follow USAF Reorganization

THE 1 July reorganization of the Air Force's management of aeronautical, ballistic missile, space and electronic systems, which transfers 30% of the Air Materiel Command's procurement money and 14,000 of its personnel to a new Air Force Systems Command growing out of the Air Research and Development Command, will be followed by:

L/G Schriever

- 1) Shifts in a number of general officers in the present ARDC and AMC.
- 2) Changes in the duties of some Assistant Secretaries of the Air Force, notably those for research and materiel, and
- 3) Realignments at the top levels of the Air Force Staff.

The new Air Force Systems Command, to be headed by Lt. Gen. Bernard A. Schriever, present ARDC commander, will be responsible for the procurement of about \$7 billion in "hardware." A fourth star for General Schriever also is expected, (see Back Page).

While the reorganization follows closely on the announcement that the Air Force will be responsible for all future space R&D, Secretary Eugene M. Zuckert and Chief of Staff General Thomas D. White said that the new plan has been under study for some time before the space decision.

One effect of the new organization will be to integrate the Army Corps of Engineers Ballistic Missile Construction Office, under Brig. Gen. A. C. Weeling, USA, into the Air Force organization and increase its responsibilities. When the new system goes into effect General Weeling will report to the Commander of the Ballistic Missile Division instead of to the Chief of Staff of the Army, as now. Administration and support, however, will continue to come from the Army. General Weeling will become a Deputy for Site Activation and will be in charge of facility design, construction, installation and checkout.

The official DoD announcement of the organization of the new command—printed textually elsewhere on this page—was followed by a press conference with Secretary Zuckert and General White.

Asked about the names of the generals who will command the various divisions of the new organization, General White replied:

"We are not prepared to announce the names of these commanders at this moment, because while we know who we intend to put in, there are some person-

nel who will be moved, whose names have not yet been attached to a new assignment; and it just wouldn't be fair to them to announce the new slate, and some people not have an assignment. It doesn't mean that I'm dissatisfied with anyone where he is now, but in the shuffle there will be some changes in commanders."

The new Air Logistics Command, which will embrace what remains of AMC, will continue to have responsibility for the depots. AMC's successor will be out of the contracting business

as far as systems are concerned, but will continue to purchase other common items for the Air Force. Asked about the purchase of spares, Secretary Zuckert said he doesn't yet know how that will be handled.

Secretary Zuckert pointed out that while 14,000 people will be transferred from the old AMC over to the new Air Force Systems Command there will be little physical movement—they will merely draw their pay checks through the Systems Command instead of the Logistics Command.

AF Institute Tells Eligibility Changes

The scientific and engineering program for officers under auspices of the Air Force Institute of Technology has been modified in two ways.

Regular officers with up to 18 years of service now may apply. The old cut-off date was 16 years of service.

A plan has been formulated by which designated officers for this technical training could be tabbed as long as five years in advance. "This policy will allow the Air Force to get its investment return from a cockpit man and at the same time provide a foreseeable future for the man who doesn't want to remain solely in a cockpit job for his entire career," a statement from USAF Headquarters said.

The Air Force Institute of Technology is an accredited graduate engineering school in itself. It also farms out students to 77 of America's leading schools of engineering. The program generally has a maximum participation of 24 calendar months, but in some cases, where the candidate is lacking in mathematics, an additional three months is authorized.

The AFIT program is designed to lead to engineering and scientific degrees at the B.S., M.S. and Ph.D. levels.

Students under the program pursue such courses as Aerospace and Environic Engineering, Aerospace Engineering, Astronautical Engineering, usual engineering degrees in electronics, metallurgy, civil and nuclear specialties. There also are courses in Engineering Management and Management of Research and Development as well as studies in the biophysical sciences.

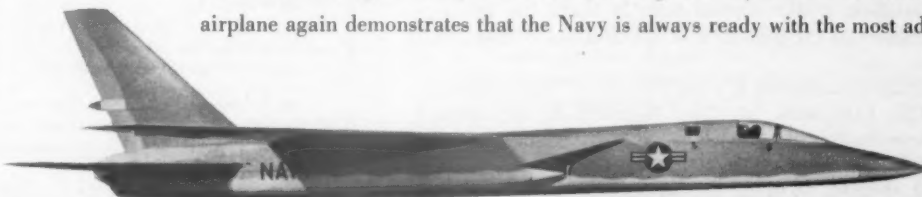

The Navy has pioneered advanced aircraft for over 50 years

On November 14, 1910, in Chesapeake Bay, a plane took off from a platform which had been built on the bow of the cruiser "Birmingham." It was the first flight of an aircraft from a naval vessel. Then, as now, the Navy was constantly moving ahead with the most advanced weapons for the defense of our country.

Since that time we have seen the advent of the aircraft carrier, and the mighty carrier task force. Today, these carriers, with their supersonic aircraft, are powerful guardians for the free world.

Latest of the Navy's carrier-borne supersonic aircraft is the A3J Vigilante attack-bomber. The Mach 2 A3J can reach targets in any weather, day or night, at any altitude or attitude. This compact, versatile airplane again demonstrates that the Navy is always ready with the most advanced weapons available.

Altitude Record. On December 13, 1960, an A3J flew to a new altitude record of 91,450 ft. with a payload of 2,204 pounds. 24,354 ft. higher than record set by a Russian jet.

Censorship At The Pentagon

Deputy Secretary of Defense Roswell L. Gilpatric deems it appropriate to issue an order that forbids anyone in the Pentagon from discussing what the Services think about the Bolté Report. This Report, released in full text by former Secretary of Defense Gates, talks about such *super-secret* matters as officer grade spreads, promotion patterns, selection board procedures, and the *hush-hush* decision as to whether Navy rear admirals of the lower half should be "floated" or "selected" to the upper half.

We deem it appropriate to advise Deputy Secretary Gilpatric—and also Secretary McNamara, if he is a party to the new secrecy order—that THE JOURNAL fully intends to continue, as we have done each week since 1863, to do everything possible to keep Service people and their families informed about matters which affect their careers and welfare.

Mr. Gilpatric maintains in an order which itself has been classified that reporters have no right to information about the Bolté Report reactions in the Services until the Defense Department makes up its mind and hammers out a legislative proposal. This may take until next year.

If the intent of the order covering the Bolté Report is broadened, no reporter covering the Pentagon would be given any information about any matter that is pending final decision by the Secretary of Defense.

A free press is not going to stand still for such arbitrary censorship that has nothing to do with national security.

AF Systems Command Has Great Responsibility

The Air Force Systems Command, whose organization will be completed before 1 July, will have a burden of support responsibility and importance greater than any other component of any of the Armed Services. It will be charged with spending the bulk of the Air Force's funds by investing in research, pursuing the development of new aeronautical, ballistic missile, electronic, and space systems, and the purchase of the final end product for issuance to operational units.

In addition, the Air Force's new role as the one Service in charge of research, development and engineering of all future space programs, regardless of which Service originates a new program or which Service or specified command will be given operational control, will require a close liaison with the space thinking and space requirements of both the Army and the Navy. For this purpose, the contact between the other Services and the Air Force will be in the Space Systems Division of the new Systems Command. The Space Systems Division will comprise the present elements of the ARDC Ballistic Missile Division and the AMC Ballistic Missile Center.

The earlier space directive provides that when an individual Service originates a space plan to meet a projected requirement it shall submit it to the office of Dr. Herbert F. York, Director, Research and Engineering, who shall evaluate it and make recommendations to the Secretary of Defense, after which, if it is approved, it shall be turned over to the Air Force for development and engineering. While no such specific responsibility has been assigned, there would appear to be a strong likelihood that Dr. York's office would depend heavily upon the facilities of the new Systems Command for guidance in making his evaluation of such projects.

While the new organization achieves the single, direct line, control which is sought for in this vast field, Lt. Gen. Bernard A. Schriever will have an enormous task in holding the reins on such a widespread and diversified organization, ranging as it does from basic research, through development and testing, to final procurement. Involved, too, will be the correlation of his work with that of the National Aeronautics and Space Administration to assure the best end results for the National Defense.

One danger which must be avoided is the subjugation of basic research, for it is evident that there will be a temptation to over-direct

basic research into channels leading to pre-determined ends rather than giving it the free hand it must have to seek new facts without regard to where they may lead. A free basic research is the life source of the future

The new organization offers great promise. Nevertheless it is only a first step, for as it gets into operation the need for further changes and modifications will become evident. That these will be made promptly is evident by the speed with which the new administration has proceeded thus far.

Readers' Views

AF Medical Officer Is "Apprehensive"

I read with interest and apprehension the article (11 March) concerning General Humphreys and his institution of basic training (?) for the physicians at Lackland.

The resignation of four physicians may seem a small thing, but I believe, as many other doctors do, that this is an early symptom of a disease the Air Force Medical Corps contracted shortly after it was formed, a disease that is shortly going to become egregiously manifest, and one for which no wonder drug has yet been found.

This disease has many characteristics, and I should like to describe the pathological alteration and its accompanying symptom(s):

1. **Remuneration:** Service physicians have always been underpaid. When the so-called incentive pay was instituted, an attempt was made to come close to national averages, and to charge the rest off to patriotism. The averages were missed by about 40% for general practitioners, and by much more for specialists.

Another sore point along the "extra pay" line is the situation where senior physicians, specialists, draw flying pay, while more junior physicians, specialists, do not. Most of these physicians put in their flying time to draw the pay, but practice in their specialty, not on the flight line. This is specialty pay, and recognized as such, given under a subterfuge. Most flight surgeons I know, (I am NOT one), would gladly go off flying status to be given commensurate, and labeled, pay for their specialty. The Medical Corps has had a specialty pay plan for years, but the brass say no, we can always draft doctors.

2. **Staffing:** Surveys are carefully made, manning documents constructed with exquisite detail. We must report our exact requirements for physicians. The SG then says we'll give you 80% of your requirements. If you have an honest CO, you remain shorthanded, all the time, (we have an honest man here), and terrifyingly short for three months, every two years when the two-year men leave, not tempted by the Air Force pay, and the recent internes enter to get their service requirements out of the way.

The Air Force, along with the other services, said: we'll sponsor these boys' residencies and then they'll make a service career out of sheer gratitude. Of course, they're getting out, and the peak will be reached in the next two to four years as obligated time is completed. But with this philosophy, a

monstrous structure is created: all specialists and few G.P.'s, the GP's, represented by the two-year men. Thus in a specialty center, we have 75% specialists, which is fine, but are supposed to run a family clinic with a mere handful of GP's.

Staffing ratios based on military population are a farce and result in too few doctors for too many people. As a result, patient care is not as good as it can be.

3. **Promotion:** Two-year men do not get promoted, period. No matter how many lives they save, how hard they work, or how hard they shirk! Most call themselves "Doctor-Basic." Funny? I think that it's kind of sad. The physicians that have completed service-sponsored residencies remain in grade up to 10 years, most 4 to 6 years. No wonder they are so eager to complete 20 or 30 years. Other ranks show similar meteoric paths. Physicians in Washington may or may not sit on promotion boards of medical officers. Promotions are made on time-in-grade and PLSD. Is this guy a good doctor? We may never know, for it doesn't make any difference to the promotion board.

4. **Time on the job:** I routinely get home one to three hours late every night. I spend two to four hours on Saturday and on Sunday seeing my patients in the hospital. I am on call 24 hours, 7 days a week, since I am alone in my specialty here, and am called frequently. The majority of the specialists here do the same thing. I think a little close-order drill, inspections, and time on the range would be indicated to fill in my boring hours of inactivity.

So, what is the disease? Not-as-good patient care by too few doctors. This shortage will increase, precipitously in the next two years. The doctors at Lackland aren't resigning just because they have to do close-order drill; that is just the last straw added to those above, which, incidentally, comprise an incomplete list.

I like the Air Force. I can practice ideal medicine in a new hospital. My CO is kind, appreciative of my work, and is not interested in attaining a DI AFSC. I see a wide variety of patients who are not medically restrained by finances. My paperwork is one-tenth that of my civilian counterparts. But, on each of my operating days, I earn a month's AF salary. I wish I came close to getting it! (3 days a week) Will I stay in? I keep thinking the AF is about to become aware of its physicians.

MAJ. USAF (MC)

IN THE JOURNAL

B/G Clarke Is One-Man Division; Fleet Marines Land In Cuba; Academy Cadet Pay Is Raised

10 Years Ago— On 10 March, the Army had a most "singular" division when Brig. Gen. Bruce C. Clarke, arriving at Ft. Hood, Tex., assumed command of the 1st Armored Division. At that time the personnel of the 1st Armored Division consisted entirely of General Clarke.

50 Years Ago— All the Marines from the Atlantic Fleet were disembarked at Guantanamo when the ships touched there this week. As the result some doubt is expressed as to whether the battle target practice of the fleet will take place on scheduled time.

97 Years Ago— It will probably be as pleasing news to the West Point cadets to hear that the Senate has agreed to increase their pay from thirty to fifty dollars a month, as it will be discouraging to hundreds of ambitious youths, who have no influence to procure an appointment to the Academy from a Representative, to know that the amendment establishing the principle of competitive examinations was lost after a sharp debate.

President Will Ask Overhaul Of Conflict, Dual-Pay Laws; Gets Study-Group Report

PRESIDENT Kennedy, who won wide acclaim in the military community when he rescinded the Eisenhower Administration's "Gold Dollar Widow" order, is expected to enhance his standing with Service families by asking Congress for a major overhaul of the conflict-of-interest, dual-employment and dual-compensation laws. (Comptroller General issues new ruling, Page 27.)

A special committee which the President assigned to work on the problem was due to place its recommendations on his desk this week. Although details of the report had not been disclosed as *THE JOURNAL* went to press, there were strong indications that the Committee would urge the President to:

- Ease the post-retirement employment rules which bar military officers from jobs in industry.

- Revamp the ancient and discriminatory laws which block most Regular retired officers from accepting Government employment.

The President's three-member committee is headed by Judge Calvert Magruder, senior Circuit Judge of the New York Federal District, and includes Dean Jefferson Fordham of the University of Pennsylvania Law School, and Professor Bayless Manning of the Yale Law School.

Previous Record Recalled

A key to the recommendations of the group may lie in the views previously expressed by two committees on which Professor Manning also served. One of these was a special committee of the New York Bar Association, which made an exhaustive study of the conflict-of-interest laws. Professor Manning was the Staff Director. The other group is the Senate Subcommittee on National Policy Machinery, of which Professor Manning is a Special Consultant.

The New York Bar Association committee recommended last year (*THE JOURNAL*, 27 February) that the President establish controls on the post-retirement employment of officers of the Armed Forces which would be less stringent than those now on the books, and "no broader than is necessary to meet the real problems."

The Committee said the President should "carefully" tailor the new ban, and not "blindly" cut it "along the lines of an outmoded pattern."

The study by the New York Bar Association group is known to have been utilized extensively by the President's present committee in arriving at its recommended legislative proposals for the new Chief Executive.

The earlier proposal sought to give the President "some flexibility" in setting new post-retirement employment rules, but would have required him to:

- Issue regulations prohibiting former commissioned officers, for a specified period, from personally dealing with personnel of the Defense Department (or certain specified units of the Department) with the purpose of assisting in the sale of anything, including services, to the U. S. through the Department or the specified units of the Department listed in the Presidential regulations.

- Set a time limit on the restrictions.
- List Defense Department units (divisions, technical services, branches or other organizational units or sub-units) with which the retired officer cannot deal during the period of the ban.

Legislation proposed by the New York group would have barred former officers "for life" from assisting in any transaction involving the Government in which they "at any time" participated during their Government employment, and would have set a two-year ban on transactions involving the Government if the transaction was under the "official responsibility" of the former officer at any time within the two-year period preceding his retirement.

The Bar Association committee said the change would put "emphasis on the officer's actual personal relationship to his former agency." Present laws which apply to retired officers carry a ban on former relationship to the department or agency, without reference to the particular matter, whereas the fundamental approach of the Bar group proposal was "a post-employment ban based on relationship to a particular matter."

In other words, no ban was sought on new matters arising for the first time after the officer is retired, and he would be permitted to "assist in any way he sees fit" in furthering such matters before his former department.

These recommendations may be included almost verbatim in the report of President Kennedy's present committee.

The Jackson Subcommittee in the Senate, whose reports on National Policy Machinery are being followed carefully by the Chief Executive (*THE JOURNAL*, 18 March), also has called for refinement of the conflicts-of-interest laws and has hit at the dual-compensation statutes as "hampering" Government recruitment of top national security talent.

Senator Jackson Seeks "Excellence"

Senator Jackson, in issuing a staff study report on the subject (*THE JOURNAL*, 18 March) observed that the Government needs "excellence wherever it can be found" but is currently making it "unnecessarily hard for private citizens to undertake Government assignments."

Professor Manning played a major role in drafting the report, which charges that dual-compensation laws "discriminate against retired officers."

The study points out that the statutes "purport to keep a retired officer from drawing two Government salaries. But actually, the two Government checks involved are very different. One is a salary check. The other is for retirement benefits earned over a 20- or 30-year career in the Armed Forces."

In the past, when efforts have been made to lower the dual-employment, dual-compensation bars, spokesmen for the Civil Service have charged that such action would squeeze career civil servants out of top posts, particularly in the Defense Department.

The Jackson Subcommittee report considered the argument, and commented that "Ways can and should be found to prevent abuses and discrimination against civilians in job appointments."

Proposals to revise the dual-employment and dual-compensation laws have been the subject of numerous studies by Congressional committees for at least the last seven years, but with little result.

Last year, the Hébert House Armed Services Subcommittee recommended new bars on the employment of retired officers by defense contractors, and a limited

plan to ease the impact of the dual-employment, dual-compensation laws for certain "indispensable" retired officers. The latter provision was eliminated from the proposed law upon the objections of Chairman Tom Murray (D-Tenn) of the House Post Office and Civil Service Committee. The conflicts-of-interest recommendations, after a major overhaul in the parent committee, were approved by the House but failed to get anywhere in the Senate.

In opposing the proposed changes in the dual-compensation laws, Chairman Murray said last year that his Committee has had the subject under intensive study and "good progress" has been made "toward an equitable and responsible solution." Chairman Carl Vinson (D-Ga) of the Armed Services Committee agreed to drop the matter but told Chairman Murray he would not wait indefinitely for action.

This year, the Manpower Utilization Subcommittee of the House Post Office and Civil Service Committee has announced plans for another round of hearings which will delve into the subject.

During the long period of Congressional scrutiny of the conflicts-of-interest, dual-employment and dual-compensation problems, the Administration has failed to come forward with a full-scale program of its own.

President Kennedy is expected to break this logjam by presenting draft legislation to Congress during the current session. After studying the report of his three-member committee, he will send a conflicts-of-interest message to Capitol Hill, and, at the same time, ask the Justice Department and other interested agencies to work out final draft proposals.

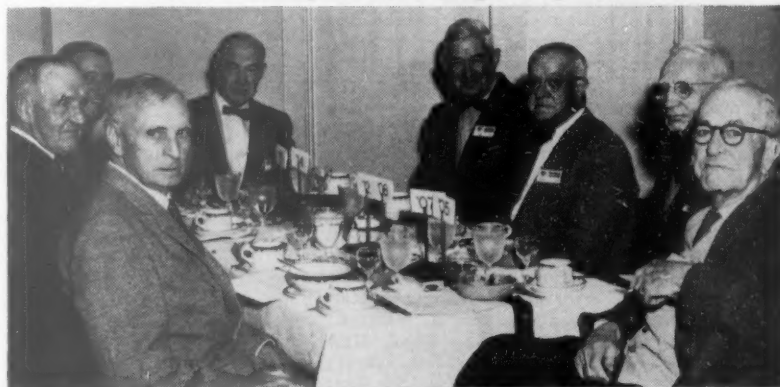

PARIS AIR SHOW PARTICIPATION TOLD

THE Department of Defense in cooperation with civilian agencies of the Federal Government has announced the participation planned by the U. S. Government at the 24th International Air Show in Paris, France, 26 May-4 June.

With a central theme of "United States Contributions to Aviation and Space Research" an integrated exhibit will be established depicting early aviation achievements, the development of modern aircraft, current space programs, and concepts of the future. Included will be full size models of significant satellites orbited and the AGENA rocket, second stage booster of the highly successful DISCOVERER test series.

Among the modern aircraft which are expected to be shown, will be the Mach 2 Convair B-58 Hustler, the North American A3J Vigilante, the Lockheed F-104 Starfighter, the Republic F-105 Thunderchief, the McDonnell F4H Phantom and the Convair F-106 Delta Dart. Each of these either hold or has exceeded one or more world records sanctioned by the Federation Aeronautique Internationale.

Old Grads Of "The Long Gray Line"

THE annual USMA "Founders Day" luncheon at Ft. Ord, Calif., saw these Monterey Peninsula residents, all retired Army officers, join in the celebration. From foreground, left, are Col. Thomas C. Spencer, '07; Maj. Gen. Ernest J. Dawley, '10; Col. R. E. Anderson, '12; Col. Alfred S. Balsam, '15; Maj. Gen. William O. Ryan, '14; Brig. Gen. R. L. Avery, '08; Col. W. R. Henry, '07, and Maj. Gen. C. S. Ridley, '05. Principal speaker for the luncheon was Maj. Gen. William C. Westmoreland, '36, Superintendent of West Point. (Retired Activities, Page 31)

MEMO--

SECRETARY OF DEFENSE McNAMARA has set forth his immediate objectives at the Pentagon in a detailed tabulation of "minus or plus" 92 priority projects. It was 92 at last count, but there are deletions as some tasks are completed, for example the Space R&D Directive, and additions almost on a daily basis. A recognized management authority, Secretary McNamara has fixed a deadline for each of the 92 projects, with a clear assignment of responsibility for it. Some projects must be completed within a matter of days or several weeks; others extend through next autumn.

LT. GEN. ARTHUR G. TRUDEAU, the Army's R&D Chief, obviously disappointed with the decision to concentrate Space R&D in the Air Force, may follow a predecessor, Lt. Gen. James M. Gavin, into retirement. General Gavin, who voiced opposition to Eisenhower Administration decisions affecting the Army, has been designated as Ambassador to France by the Kennedy Administration. There was widespread speculation in the Army that General Trudeau might figure in the recent appointments of a Vice CofS and USARPAC CG—both 4-star billets—but these posts went to other officers. There is no question that General Trudeau has been the most outspoken senior officer in the Army since the retirement of General Gavin.

THE HERCULES GOER TEST (see Page 1) may lift the lid on Army discussion of the offensive capabilities of the anti-aircraft nuclear missile. There is a strong feeling in some Army circles that more should be said about the possible use of Hercules in an artillery role as a dual-purpose weapon.

THE CHAMBER OF COMMERCE has come forth with its annual declaration that huge savings are possible in the defense program. The Chamber has issued a release which says that "about \$1.2 billion could be shaved from defense spending without hurting defense." The release does not tell how this can be done, except to say: "The National Chamber suggested that the Department of Defense cut frills like buying ammunition for civilian rifle practices and stop costly 'do-it-yourself' programs where purchases from taxpaying firms would save money."

IT'S AN ENIGMA: The Bolté Report, published at length in January issues of The Journal, made the strong point that the Services need to do a better job of keeping military people informed about personnel matters. Specifically, General Charles L. Bolté, USA-Ret., and his associates called for less secrecy concerning selection board actions. So what happens? The Services, asked by DoD to submit their comments on the Report, are told by DoD (see Page 1) that they must maintain secrecy about what they said.

THE ARMY AVOIDED a completely negative response to the Bolté Report. Its report to DoD indicated that the Army had no objection to some proposals—these were not specified—but left no doubt that the Army wants the entire Report rejected.

"LIFE UNDER EXOTIC CONDITIONS" is the designation for 1 of 5 Medical Space Research projects being conducted by the Navy. This study is being made at the School of Naval Aviation Medicine, Pensacola, Fla., which is also conducting research in the "Effects of Angular Velocity, Angular Acceleration, Coriolis Acceleration, and Tumbling," and another project on "Triaxial Human Ballisto-cardiogram In A Zero-G Environment." At the Bethesda, Md., Naval Medical Center, there are projects on "Space Flight Aspects of Human Temperature Control and Energetics Studied by Gradient Calorimetry and Heat Burst-Microcalorimetry," and "Injurious Effects of Mechanical Vibration."

CHAIRMAN OVERTON BROOKS (D-La) of the House Space Committee will be involved in a Capitol Hill inter-Committee controversy with Chairman Carl Vinson (D-Ga) of the House Armed Services Committee if he persists in summoning military men to testify before his group on matters, such as Secretary McNamara's new R&D directive. It was noteworthy that at the start of the hearings, Chairman Brooks, formerly the No. 2 Democrat on the Armed Services Committee, said that Secretary McNamara's action "is a matter which goes to the very heart of this Committee's jurisdiction."

MAJ. GEN. ARNO H. LUEHMAN, who completes 4 years as AF Director of Information 1 May, appears likely for another year's extension in this key assignment. Normally, officer transfer changes are announced several months in advance. Since there has been no word about a new assignment for General Luehman, it can be anticipated that he will remain at the Pentagon. His Deputy is Brig. Gen. E. B. LeBailly.

THE SERVICES WILL LOSE several hundred experienced information officers during the next 2 years. They are largely former newsmen who entered the Armed Forces early in WWII and who remained on active duty.

ORDERS HAVE BEEN ISSUED to STRAC and MATS Commanders to play down the public information aspects of the forthcoming "Operation Long Thrust" which will see a battle group airlifted to Europe in a mobility test. The Pentagon has directed that the Army and Air Force discourage a buildup in the press about the exercise. It had been planned originally to airlift some STRAC troops from the U. S. to Turkey, but this phase of the exercise was eliminated. The decision was made for "political" reasons.

ON A MORE LOFTY FRONT, the Pentagon has clamped a tight lid on information about the Samos satellite, often called the "spy in the sky." Information people in the Air Force and in industry decline to discuss details of the new restrictions under which they must operate, but they concede that questions about Samos which they were once free to answer now cannot be answered.

THE ARMY CHIEF OF ENGINEERS, Lt. Gen. Emerson C. Itschner, has requested retirement in a surprise move. He was appointed Chief in September '56 as a major general, and was given 3-star rank in '59. In September '60, just 2 months before the elections, then Secretary of the Army Wilber M. Brucker proposed, and President Eisenhower approved, the appointment of General Itschner for a 2-year extension. This action was endorsed subsequently by President Kennedy.

WORD OF GENERAL ITSCHNER's intention to retire became known when newsmen received invitations to a retirement review 27 March at the Engineer Center, Ft. Belvoir, Va. As The Journal went to press, President Kennedy had yet to send to the Senate the nomination of the retiring Engineer Chief for 3-star rank. Unless confirmed by the Senate for such status, General Itschner would be required to retire in his permanent 2-star rank. He has accepted a position in Pakistan.

A COMMAND DECISION has been reached at XVI Army Corps Headquarters in Omaha. Reservists who reside in Kansas have been given permission "to waive normal standards of military appearance to permit them to grow beards during the State of Kansas observance of its centennial year." This ruling will be of particular interest to VAdm. Robert B. Pirie, Deputy CNO (Air), whose beard has no connection whatsoever with the fact that Naval Aviation is celebrating its 50th Anniversary this year.

THE GOVERNMENT SERVICES ADMINISTRATION will be given responsibility for procurement of about 30,000 items which are now purchased by the Armed Forces. These are "common use" items, employed by civilian and military organizations alike.

A "CALCULATED RISK" was taken by DoD leaders when they decided (1) to conduct the Reserve Forces Study (see Page 1) outside the JCS Joint Staff organization; and (2) to execute this task without the active participation of the National Guard Association and Reserve Officers Association. This procedure will permit prompt action.

AGAINST THESE ADVANTAGES, Secretary McNamara and Assistant Secretary Carlisle P. Runge, who has had both National Guard and Reserve service, had to weigh 2 disadvantages: (1) the study, particularly as it relates to roles and missions, may lack a full measure of authoritative participation at the JCS level; (2) the politically powerful National Guard and Reserve Officers Associations, in any disagreements they may have with conclusions of the Runge Task Force, can and will tell Congress, in no uncertain terms, that they were not consulted.

MANY RESERVE FORCES LEADERS, notably in the Guard, have stated during the past several years that Guard and Reserve units should take on increasing responsibilities in what some call civil defense areas, but what military men prefer to differentiate as "recovery missions." Any shift of Reserve Forces training from strictly combat preparations to civil defense and/or recovery work is a delicate matter. It needs special handling. Thoughtful preparations are essential, particularly in the information field.

BUDGET HEARING DEMANDS have put added pressure on the Reserve Forces study. It may be necessary for Secretary McNamara to insist, before 1 April, that he be given necessary information on which to base a recommendation to President Kennedy as to whether the Reserve Forces strength stay at present levels, be cut as proposed by General Eisenhower, or be increased.

INCREASED SALE OF U. S. AUTOS to members of the Armed Forces overseas hinges on a meeting next week among representatives of the Army and Air Force Exchange Service and the Navy Ship's Store Office in New York City. The proposal is to sell U.S. compact cars through exchange facilities. At present, only the Air Force Exchange Service in Europe sells the U.S.-made Rambler. As a result of the recent actions to stem the gold flow by reducing the purchase of foreign cars by U.S. Service people, the Armed Forces now are trying to convince U.S. manufacturers, such as Ford, Chrysler and General Motors, to join American Motors in merchandising automobiles through PX facilities.

THE SHIP STORE aboard a large carrier, such as the nuclear-powered Enterprise now under construction, will do more than \$1 million a year in business. Next week's issue of The Journal, which will highlight the 50th Anniversary of Naval Aviation, will carry a report by a staff member who this week visited the Navy's Ship Store headquarters in New York City.

THE MACKAY TROPHY for 1960 will go to the Air Force unit that made the first aerial recovery of an object from space orbit. General Thomas D. White, Air Force CofS, awarded the coveted trophy to the 6593 Test Squadron, (Special) at Hickham AFB, Hawaii, under Maj. Joseph Nellor. This is the unique organization, whose crews flying C-119 Boxcars, soon to be replaced by Lockheed C-130 Hercules propjets, have succeeded in airsnatching 3 Discoverer space capsules after they were ejected from orbit. The Mackay Trophy was first awarded to then Lt. H. H. "Hap" Arnold, later General of the Air Force, in 1912.

THERE'S A POLARIS at an Air Force Base. It's the Polaris Toastmasters Club at Elmendorf AFB, Alaska, which has received its official charter from Toastmasters International. Maj. Gen. Frederick R. Zierath, USA, Alaskan Command CofS, presented it to Maj. Lawrence E. St. John, USAF, President.

TC Board Meets On School Programs

The fourth meeting of the Transportation Corps Educational Policy and Requirements Board was held last week at the Army Transportation School, Ft. Eustis, Va.

The board, senior advisory group to the Chief of Transportation on educational and training matters, has as Chairman, Brig. Gen. Robert B. Neely, School Commandant; Secretary is Dr. H. Jackson Darst, School Educational Advisor. Lt. Col. George A. Reynolds of the Office of the Educational Advisor acts as Assistant Secretary.

Others on the board, representing the Office, Chief of Transportation, include Cols. Charles F. Manov, Assistant COFT for Military Operations; David B. Parker, Assistant COFT for R&D; Roger M. Crosby, Army Transportation Materiel Command, St. Louis; A. J. Montgomery, Military Traffic Management Agency, Washington, D. C.; Richard J. Dial, Army Transportation Terminal Command (Arctic), Brooklyn, N. Y., and Leonard F. Colwell, Chief, Military Personnel Division, Washington.

United Van Lines' SERVICE-ABLE MOVING

The Direct Route To Anywhere In The World

Wherever your next assignment takes you—over land or over seas—depend on the United Agent to take your household goods to their new quarters with safety, speed and dignity.

"Dignity" may seem a strange word to find in a moving ad. But it best sums up the respect United Agents sincerely feel is due your belongings. Furnishings are not mere wood, metal, fabric and glass. They are the cherished things that make your house a home. They deserve the best of care.

In short, United Agents give you protection, convenience and peace of mind that perhaps you've never experienced before. Personalized "Pre-Planning" to relieve you of bothersome details . . . exclusive Sanitized* vans and equipment to keep your possessions fresh and clean . . . destination service to get you promptly and comfortably settled.

Next time, why not call your service-able United Agent. He's listed under "MOVERS" in the Yellow Pages.

Deputy Secretary Gilpatric Explains New Space RDT&E Directive

(The following is the text of the statement made by Deputy Secretary of Defense Roswell Gilpatric before the House Committee on Science and Astronautics in which he analyzes the new directive on space systems research, development, test and engineering, which was published in the 11 March issue of THE JOURNAL.)

Deputy Secretary Gilpatric takes note of published criticism that the Service Chiefs were not given adequate time to consider the new plan, and states: "It is true that the decision . . . was made in less time than has customarily been the practice in the Department of Defense. It is not true that the decision was made without full consideration and without giving all parties an opportunity to be heard."

THE purpose of that directive is to establish policies and to assign responsibilities for research, development, test and engineering of satellites, antisatellites, space probes and their supporting systems for all components of the Department of Defense.

Under this directive every component of the Department of Defense, which includes not only the military departments but also other organizations of the Defense Department, is authorized to conduct preliminary research to develop ways of using space technology to perform its assigned function. The scope of such preliminary research by each defense component is to be defined by the Director of Defense Research & Engineering in terms of expenditure limitations and other appropriate conditions.

Limits Set

No military department or other Defense agency is authorized to go beyond the defined scope of preliminary research unless and until the program or project has received the express approval of either the Secretary or the Deputy Secretary. To obtain that approval the several military services and other Defense agencies are required to submit their proposals to the Director of Defense Research & Engineering for review and determination as to whether they shall be recommended for approval. Any such proposal will become a Department of Defense space development program or project when it has received the specific approval of the Secretary or his Deputy. Once approval has been given, further research, development, test and engineering of Department of Defense

space development programs or projects will become the responsibility of the Department of the Air Force unless a specific exception is granted by either the Secretary or his Deputy. The directive provides that such exceptions will

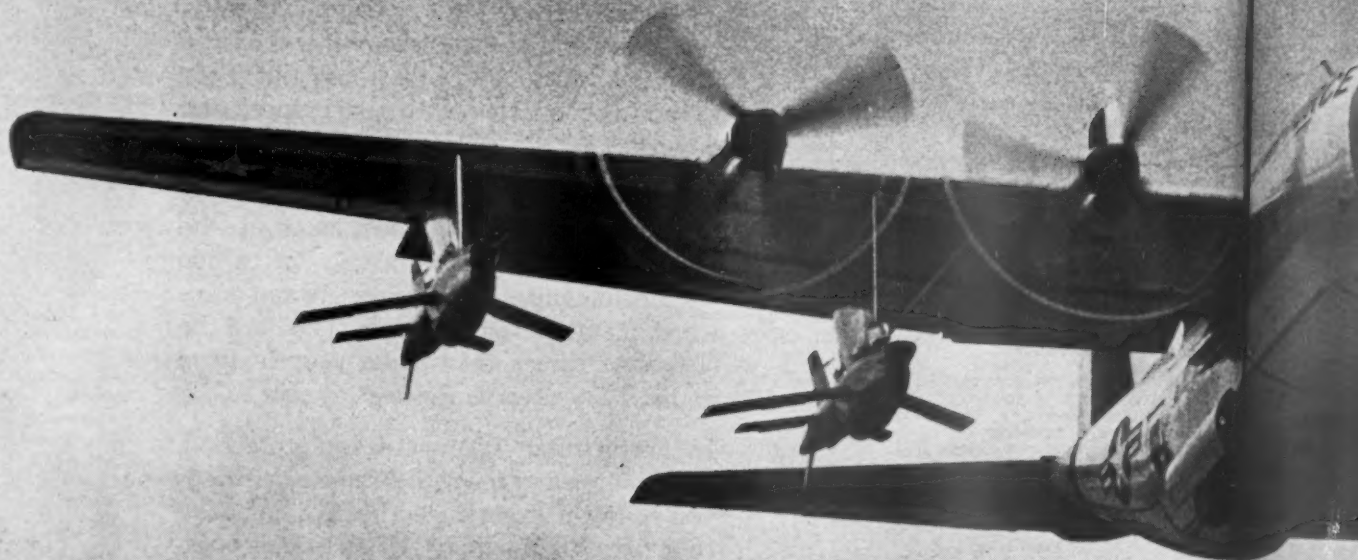

be made only in unusual circumstances.

Before discussing the events and circumstances under which this directive was formulated, I should like to review briefly with the Committee the history of management of space projects and

programs within the Department of Defense.

Prior to the orbiting of Sputnik I in October 1957, the development of space projects was the responsibility of the individual services. Interservice coordination was

HERCULES is a drone lifter too

There are plenty of reasons why the Lockheed Hercules (GC-130) is an ideal father ship for target drones: speed, altitude, endurance; pressurized, air-conditioned work space for drone directors; high wing for good ground clearance and accessibility; short takeoff and landing. These same reasons, plus a lot of others, make the C-130 Hercules the free world's most versatile and useful cargo airplane.

Directive; Decision Process Described; Safeguards Stressed

tion was effected through interservice committees. The orbiting of Sputnik demonstrated the need for greater urgency in the development of both our ballistic missile and space programs and the need for stronger central direction

and control. Accordingly, early in 1958, Secretary McElroy created within the Office of the Secretary of Defense the Advanced Research Projects Agency (ARPA) and assigned to it the responsibility for the research and develop-

ment of advanced research programs. Subsequently, Congress gave statutory recognition to this Agency. From the time of the establishment of ARPA, research and development of space programs and projects within the Depart-

ment of Defense has been under the centralized management of the Department of Defense, and the military services have played only such roles as have been assigned to them by the Secretary of Defense.

Upon the creation of the office of the Director of Research and Engineering by the enactment of the 1958 amendments to the National Security Act of 1947 supervision and control of ARPA's activities were assigned to the Director of Research & Engineering. In 1958, Congress established the National Aeronautics and Space Administration (NASA), and during that year the Department of Defense transferred to it those programs which were basically non-military in character. The remaining military space programs continued to be developed by ARPA.

In September 1959, Secretary McElroy, determining that research and development of current space programs had reached a point where further development could be assigned to the services, assigned to the Air Force responsibility for the development and production and launching of space boosters and the necessary systems integration incident thereto, if approved by the Secretary of Defense. In addition, he made specific assignments for payload development and payload research, development, support and production improvements to the several services. SAMOS and MIDAS were assigned for further development to the Air Force, TRANSIT to the Navy and ADVENT to the Army. Further assignment of additional projects were to be determined at a later time.

Uncoordinated Announcement

The September 1959 directive of Secretary McElroy did not clearly delineate the assignment of responsibilities for future space research and development programs and projects did not define the limitation within which preliminary research by the Services would be conducted. By the time that Secretary McNamara and I assumed office in January of this year, it had become clearly apparent that there was need for immediate re-examination of the McElroy memorandum in light of recent developments. In December 1960, there had been an uncoordinated announcement by the Department of the Navy of its intention to initiate a series of new satellite programs in fields such as communi-

Deputy Secretary Gilpatric Explains Pentagon Space R&D Directive

From preceding page—

cations and reconnaissance. The Air Force had also announced a new communications project which would be in addition to ADVENT and ECHO. On January 12, 1961, the Ad Hoc Committee on Space Appointed by then President-elect Kennedy recommended that there be established "a single responsibility within the military establishment for managing the military portion of the space program."

Promptly upon assuming office, Secretary McNamara made the re-examination of space research and development management a matter of the highest priority and assigned the problem for study and report to the new Office of Organization and Management Planning Studies. This is a small office created by

Secretary McNamara within the Office of the General Counsel primarily to conduct research to provide timely and effective solutions to Defense management and organizational planning problems.

The staff of this office reviewed the entire current military space program with the Director and staff of the Office of the Director of Research and Engineering. They also reviewed the management of each of the current military space programs with personnel from the appropriate military departments having knowledge of management practices and procedures for space projects. As a result of their study, the staff advised Secretary McNamara that under existing assignments the Air Force was responsible for over 90% of space research

and development and that with respect to projects not assigned to the Air Force for research and development, the Air Force was playing a considerable part in the development of those projects through provision of the boosters, launch facilities and services. The staff also analyzed the advantages and disadvantages of a number of proposed solutions for defense space research and development. The solutions considered included reaffirmation of the McElroy Memorandum, the establishment of a Department of Defense agency to carry out space research and development, assignment of all space research and development to the Air Force—without exception—and assignment of such responsibility to the Air Force unless an exception is made by the Secretary of Defense.

field of space. We also took into account the limitation on the concept of a joint space agency and the problem that had been faced by ARPA when it was charged with responsibility for all space research and development projects in the Defense Department.

Four Safeguards

Furthermore, the Secretary wrote into the directive three safeguards designed to preserve the effectiveness and capabilities of all of the Services.

First, it was provided that each component of the Department of Defense would be permitted to conduct preliminary research to develop ways of using space technology to perform its assigned function.

Second, it was provided that no project would be developed beyond the preliminary stage until it had been specifically approved as a Department of Defense space project or program by the Secretary or the Deputy Secretary. Such approval would be given only after an affirmative scientific and technical recommendation had been made by the principal scientific advisor to the Secretary, the Director of Defense Research & Engineering. It should be noted that the Department of the Air Force does not select what projects are to be developed. In this respect, the Department of the Air Force is only another proponent of equal status with the other Services and other Defense agencies having an interest in space projects.

Third, we provided that under unusual circumstances an exception could be made and development assigned to a Service other than the Air Force.

In addition, there is a fourth safeguard. Like all other research and development programs under single management in the Department of Defense, the space programs in their processes of development, research, testing and engineering are under the continuous direction and control of the Director of Defense Research and Engineering who will maintain close program review.

We believe that these four safeguards, the first retained by the Services and the remaining three vested in the Secretary of Defense, his Deputy and the Director of Defense Research and Engineering, will be adequate to preserve the over-all effectiveness and capability of all of the Services.

Operational Responsibilities

The second criticism advanced against the proposed directive was that the assignment of responsibility for space research and development to the Air Force would encroach upon the operational responsibilities of the other Services. The directive as issued, however, does not deal in any way with the operational assignment of space systems. In his memorandum of transmittal of the new directive, the Secretary made it abundantly clear that the question of operational assignment was being reserved for future determination.

Moreover, the Air Force is making certain organizational changes to make sure that it can adequately and fairly service the requirements of the Army and the Navy, as well as NASA, to the extent that the Air Force has responsibility for the development of space projects of interest or concern to its sister agencies. The Secretary of the Air Force will, if you wish, describe in more detail the steps which the Air Force is taking to discharge the added responsibilities which will be imposed upon it as a result of the new directive.

How Decision Was Made

There is one other point I should like to address myself to briefly, and that is the manner in which Secretary McNamara's decision was made. It is true that the decision on assigning responsibility for space developments was made in less time than has customarily been the practice in the Department of Defense. It is not true that the decision was made without full consideration and without giving all parties an opportunity to be

ARADCOM Holds Nation-Wide Aviation Conference

AVIATION officers from six regional commands and Army Air Defense Command Headquarters met recently in Colorado Springs. Left to right, front row, are Maj. Homer W. Johnston, Aviation Officer of USARADCOM's 7th Region at McChord AFB, Wash.; Capt. Irwin T. Bruestle, Assistant Aviation Officer, 5th Region, Ft. Sheridan, Ill.; Brig. Gen. Francis M. McGoldrick, ARADCOM G-3, Colorado Springs; Lt. Col. Gordon L. Kinley, Aviation Officer of ARADCOM and host for the conference; Capt. Harry E. Ziegler, Aviation Officer, 2d Region, Ft. Meade, Md., and Maj. James H. Lefler, Operations Officer of the ARADCOM Flight Division.

Left to right, back row, are Capt. Ernest C. Elliott, Aviation Officer, 1st Region, Ft. Totten, N. Y.; Maj. Neil Reese,

ARADCOM's Aviation Safety Officer; Capt. James W. Ford, Assistant Aviation Officer, 6th Region, Ft. Baker, Calif.; Capt. Russell D. Lautzenheiser, Assistant Aviation Officer, 4th Region, Kansas City, Mo.; Capt. Donovan M. Beadle, Aviation Officer, 4th Region; Capt. Donald J. Palczynski, Assistant Aviation Officer, 7th Region; R. Gray Robbins, Civil Service employee, Safety Director of ARADCOM; Capt. Wilson C. Parker, Assistant Aviation Officer, 2d Region; Maj. Terry C. Salt, Assistant Aviation Officer, ARADCOM; and Maj. Arthur W. Barr, Chief of Aviation Supply and Maintenance in ARADCOM's Transportation Section.

FORMER AF OFFICER:**Capt Anklam Gets Century Command**

Capt. Frederick M. Anklam, CE, USA, has assumed command of Camp Century on the Greenland Ice Cap, relieving Capt. William F. Cahill.

Camp Century supports Army R&D in the Polar Ice Cap regions on a permanent basis.

After serving in the Air Force Air Weather Service for over four years, Captain Anklam was appointed to the U. S. Military Academy and graduated in '54.

Later, he studied Civil Engineering at the University of Illinois, where he received the Master of Science degree in 1959.

Captain Anklam led a 24-man party to Greenland this month. It will be followed by 11 succeeding increments to total some 454 personnel stationed in these polar regions this summer. USA PR&DC is maintaining year-round R&D project support in two active ice research sites at Camp Tuto, and Camp Century.

BACK AT RILEY

Lt. Robert C. Fulton has reported for duty with the 5th Infantry at Ft. Riley, Kans., where his father, Col. Harry A. Fulton, served as a lieutenant with the 2d Cavalry 20 years ago.

Colonel Fulton is currently assigned to the Adjutant General Section, Sixth Army, Presidio of San Francisco.

The new 5th Infantry officer is an ROTC graduate from Creighton University, Omaha, who received a Regular Army commission.

B/G Exton At Schofield

Brig. Gen. Hugh M. Exton, Deputy CofS, Administration, Pacific Army Headquarters, Fort Shafter, Hawaii has been reassigned to Schofield Barracks there as Division Artillery Commander for the 25th Infantry Division.

He succeeds Brig. Gen. Johnathan O. Seamen now at Ft. Bliss, Texas.

Col. Wood Gets New VA Post

Col. Harry T. Wood, Manager of the office at Hartford, has been appointed manager of the VA regional office at Cincinnati.

He succeeds Robert M. FitzGerald, transferred as Manager to the VA office at Detroit.

Colonel Wood, 65, graduated from the U. S. Military Academy and served in the Army from August 1917 to June 1920 and from March 1942 to March 1946.

SERVICE FAMILY NOTES

Family Editor
Louise B. McGiffertAssociate Family Editor
Bertie Johnson

Robins Wives Aid Drive

Proceeds from the Charity Ball sponsored by the Robins AFB, Ga., Officers Wives Club have been turned over to the chairman of the Robins' National Health Agency and Joint Crusade Campaign.

Mrs. W. T. Hefley, wife of Major General Hefley, Warner Robins Air Materiel Area Commander, presented a \$326.41 check to Carver H. Reinertsen, Campaign Chairman. Mrs. R. B. Sullivan is team captain for the OWC during the drive.

Party For Knox Regiment

Col. and Mrs. Henry Frankel presided at a recent dinner party at Ft. Knox, Ky., for officers and wives of the 3d Training Regiment.

The Regiment said farewell to the departing Capt. and Mrs. Robert Kenyon, Capt. and Mrs. Roy Venable, and Lt. and Mrs. Raymond Norvell. Welcomed to the Regiment were Lt. Gene Andrews, Lt. Arthur Bresnik, Lt. and Mrs. George Grigory, Lt. and Mrs. Gottlieb, Lt. and Mrs. Paul Tipples.

Service Folk

Miss Linda Bergman, daughter of Col. and Mrs. Philip A. Bergman, MC, USA, 407 South Hutton Street, Fitzsimons General Hospital, Denver, has been selected as a member of the cast in the School of Communication Arts, University of Denver's production of Mary Chase's "Bernadine." This play will go on a 7 week USO sponsored tour, leaving 1 April 1961 for presentation at various Armed Forces installations in Hawaii, Guam, Japan, Korea, Okinawa, Formosa and the Philippines.

Mrs. Emerson L. Cummings, wife of Fifth Army CG, has received an award for outstanding Red Cross service in the Far East. She was cited for exceptional service in the Far East, particularly Korea, where she served as Deputy Director of the Red Cross Office of Volunteers from 1958 through 1960. General Cummings, who assumed command of Fifth Army 1 February, was then Deputy CG, Eighth Army. Mrs. Cummings also directed development of Red Cross volunteer service programs and a pilot project for the Pusan Children's Charity Hospital.

Pendleton Wives Graduate Course

Thirty-six volunteer women have received graduation diplomas for the Navy Relief Society's Training Course.

Maj. Gen. Alan Shapley, CG, Marine Corps Base, presented diplomas to Mesdames P. E. Booth, R. N. Burhans, B. W. Butler, T. J. Canty, H. W. Card, C. T. Coffin, T. J. Dalzell, J. L. Fawcett, R. A. Gallant, W. G. Graham, D. A. Hall, B. B. Hammond, A. Hartman, P. B. Hawes, J. A. Hedin, J. W. Ireland, R. M. Johnson, J. D. Jordan, Jr., J. Kilday, K. W. Kolb, F. W. Kroll, Jr., T. B. Lecky, R. E. Lorigan, R. M. Losee, J. W. McAleer, J. A. McAlister, A. J. McCarthy, L. E. Morris, W. H. Muldoon III, G. E. Petro, E. W. Pinkham, Jr., B. B. Porter, G. M. Rickerton, A. W. Riggs, W. D. Sawyer, D. A. Silva.

General Shapley presented Mrs. Edward F. Kline the "Meritorious" service award, the highest by the Navy Relief.

Also presented at the ceremonies by Maj. Gen. H. R. Paige, CG, 1st Marine Division, were pins for 600 hours of volunteer work to Mesdames R. J. Anthony, J. B. Barrett, W. T. Miller, G. R. Shaver.

Presented 100 hour pins by General Paige were Mesdames C. J. Buck, D. R. Cowling, D. A. Hall, C. W. Harrison, G. D. Hauff, P. B. Hawes, A. J. McCarthy, W. H. Muldoon III, J. R. Munday, R. S. Robertson, H. S. Roise, C. E. Rudolph, Jr., W. Scullion, M. E. Wilcox.

Retirement Bound

GENERAL I. D. White, CinC, U. S. Army, Pacific, and Mrs. White are pictured in a relaxed mood in the garden of their home on Palm Circle, Ft. Shafter, Hawaii. The Whites plan to make their home in Hawaii after the General retires 31 March. He will be succeeded by Lt. Gen. James F. Collins, who has been Deputy CofS for Personnel.

Election At Hawkins Barracks

The Officers Wives Club of Hawkins Barracks at Oberammergau, Germany, has elected Mrs. Jane B. LePage as President. Mrs. Martha J. Fisher was named Vice-President; Mrs. Olive B. Douthit, Secretary, and Mrs. Dorothy T. Stafford, Treasurer.

Hawkins Barracks is the home of the Army School Command, Europe, and the Army Intelligence, Military Police, and Special Weapons Schools, Europe.

Skeet Shoot

The Armed Forces Invitational Skeet Championship will be held at Ent AFB, Colorado Springs, 26-28 May.

Mrs. Itschner Will Be Honored At Farewell

The Army-Navy Country Club will be the scene of mixed emotions on Wednesday 5 April, when members of the Engineer Officers' Wives Club meet to honor Mrs. Emerson C. Itschner, wife of the retiring Chief of Engineers. Mrs. Itschner will be sorely missed by the group in which she has served as both past President and Honorary Chairman of the Board, with calm and wise counsel.

Also on hand to honor Mrs. Itschner will be the wives of the Chiefs of the Technical Services, Mesdames Ralph T. Nelson, Signal Corps; Leonard D. Heaton, Medical Corps; John H. Hinricks, Jr., Ordnance Corps; Frank S. Besson, Transportation Corps; Marshall Stubbs, Chemical Corps; and Andrew T. McNamara, Quartermaster Corps.

The program will feature a fashion show with the theme "So You Are Going To Be Transferred," and Chairman of the luncheon will be Mrs. Daniel A. Richards.

AF YOUTH PROGRAM SERVES 1.5 MILLION

THE Air Force Dependent Youth Activities Program will serve an estimated 1.5 million children this year. During 1960, the Air Force spent more than \$1.5 million from non-appropriated funds to carry out world-wide youth activities.

Almost every Air Force base has its youth director, working directly under the Personnel Services program, which is designed to take over with the young adult where the youth programs leave off. Youth directors work with Base Chaplains, hospital medical staffs, parents' groups and commanders to establish rounded programs to build character, social and physical attributes in AF children.

The youth program, originally designed to fill the Summer vacation months with sound recreation and education programs, now is being geared for a year-round effort.

Summer of 1961 will see Air Force bases mobilizing volunteer airmen, officers and wives to help Youth Directors with annual effort. Currently, activities include games, swimming, track meets, dodge-ball, soft-ball, field-day competitions, dance instructions, boys' and girls' scouting activities, Little League Baseball clubs, hobby and craft instruction, Teen Clubs, vacation schools and group trips. But Air Force officials feel that the formal activity programs should extend more uniformly throughout the year.

Air Force Special Services officials see a need for: greater recognition of youth needs; more do-it-yourself fund-raising programs; more recruiting and training of volunteers; and total base population participation and most significant of all—the acceptance by all parents of their basic responsibility to assist this vital program.

Service Weddings and Engagements

MR. and Mrs. Howard Walton Patterson of Norfolk, Va., announce the marriage of their daughter, Rebecca Jane, to 2d Lt. Joseph William Hutchison, USA, son of Maj. Gen. (USA) and Mrs. Charles Richard Hutchison of Ft. Shafter, Hawaii, at the Larchmont Baptist Church, Norfolk, 26 February.

Attended by her sister, Miss Mary Elizabeth Patterson as maid of honor, the bride was given in marriage by her father, and chose Misses Carol Kitchen, Adele Russell, Linda Worrell and Roselle Sesso as bridesmaids. General Hutchison served as best man for his son, and groomsmen included Messrs. Sterling Tuttle, W. F. Schaefer, Jr., cousin of the bride, Thomas Wommack and J. R. Liles.

Mrs. Hutchison attended the Norfolk branch of the College of William and Mary and the University of Virginia School of Nursing. Her bridegroom, USMA '60, and grandson of the late Col. and Mrs. William Charles Webb, is assigned at Schofield Barracks, Hawaii, where he and his bride will make their home.

EILAND-VITTRUP—Maj. Gen. (USA) and Mrs. Russell L. Vittrup of Qtrs. 21-B, Ft. Myer, Va., have announced the engagement of their daughter, Muriel Helene, to Cadet Michael D. Eiland, USMA, son of Mr. and Mrs. Julian D. Eiland of San Diego, Calif.

Miss Vittrup, who was graduated from Dickinson College last June, is now employed in the office of Senator Ralph W. Yarborough (D-Tex). Her fiancé is a first classman at West Point.

A June wedding is planned at Ft. Myer.

GERSHON-ANGEN—Col. (MC, USA) and Mrs. Willard F. Angen of Ft. Baker, Calif., announce the engagement of their daughter, Elda Anne, to Mr. Michael David Gershon, son of Mr. and Mrs. Murray H. Gershon of Brooklyn and Crayville, N. Y.

Miss Angen, a graduate of the Punahou School, Honolulu, and Smith College, where she was elected to Phi Beta Kappa, is now a student at the Cornell Medical School, New York. Her fiancé, who was graduated from Cornell University with distinction and was, also, elected to Phi Beta Kappa, is now in his second year as a Research Fellow at Cornell Medical College.

The wedding is planned for June in San Francisco.

RAY-WALTERS—Mr. and Mrs. Marquis T. Walters of Tyler, Tex., have announced the engagement of their daughter, Charlotte, to Lt. James Floyd Ray, USA, son of Col. (USA) and Mrs. C. E. Ray of Ft. Sam Houston, Tex.

Miss Walters is a graduate of Southern Methodist University, where she was a member of the Kappa Alpha Theta sorority, was editor of the *Rotunda* and a member of the Mortar Board. Her fiancé, USMA '59, is a Rhodes Scholar, now studying at University College, Oxford.

The wedding is planned for 8 July in the main sanctuary of the Marvin Methodist Church, Tyler, after which, Lieutenant Ray and his bride will make their home at Oxford, while he completes his final year of study there.

CAIRNS-DORAN — Col. (USA) and Mrs. Roy Ernest Doran of 223 Slade Run Dr., Falls Church, Va., announce the engagement of their daughter, Diane Clarice, to Cadet Douglas Brougher Cairns, USAFA, son of Mrs. M. A. Walker of Alexandria, Va., and the late Maj. Gen. Bogardus Snowden Cairns, USA.

Miss Doran is a senior student at Mary Washington College, the University of Virginia at Fredericksburg, where she was recently selected to *Who's Who in Colleges and Universities of the U. S.* Her fiancé, a first classman at the Air Force Academy, is the grandson of Brig. Gen. (USA-Ret) and Mrs. William Edward Brougher of Atlanta, Ga.

A July wedding is planned.

WATLING-REUTER — Mrs. Peter T. Reuter of Newton Center, Mass., announces the engagement of her daughter, Dorothy Jane, to Capt. Edward T. Watling, USA, son of Mr. and Mrs. Robert G. Watling of Morristown, N. J.

Since graduating from Sargent College, Miss Reuter has been a member of the faculty of Northeastern University, Boston, and has served the past four seasons as tennis hostess at the Longwood Cricket Club, Chestnut Hill. Her fiancé, VMI '49, received an M. S. degree in Industrial Engineering from Stan-

Miss Doran

ford University. Having served in both Germany and Saudi Arabia, Captain Watling is currently assigned to the Army Corps of Engineers Ballistic Missile Construction Agency, Los Angeles. An April wedding is planned.

JULIAN-SIMECEK — Announcement has been made of the engagement of Miss Cynthia Bell Simecek, daughter of Mrs. Victor Simecek of San Jose, Calif., and Dr. Victor Simecek of Ft. Ogden, Fla., to Lt. Robert Harry Julian, (USMA '33), and stepson of Lt. Colonel Audet, USA, of 4818 Baylor Dr., San Diego, Calif.

Photo by K. Cole
Miss Simecek

Miss Simecek is a junior student at San Jose State College and a member of the Chi Omega sorority. Her fiancé, USMA '58, and grandson of Mrs. Robert M. Carswell and the late Colonel Carswell, is Commanding Officer of the 59th Engineer Company at Ft. Ord, Calif.

CHRISTIAN-DeFOOR—Mr. and Mrs. Samuel Dewey DeFoor of Toccoa, Ga., announce the engagement of their daughter, Eddie Jane, to Mr. William Henry Christian, III, son of Col. (USA-Ret) and Mrs. Christian, jr., of 2625 Windsor Ave., S. W., Roanoke, Va.

Miss DeFoor

Miss DeFoor, a graduate of the University of Georgia and a member of the Kappa Delta and Zeta Phi Eta sororities, is now on the faculty of the Stephens County, Ga. High School. Her fiancé, a student at the School of Medicine of the University of Virginia, is a graduate of Emory University, where he was a member of the Chi Phi fraternity.

The wedding is planned for June.

DeMONT-SCHLANSER — Col. (USA) and Mrs. Lawrence E. Schlanser of Nurnberg, Germany, announce the engagement of their daughter, Juliet Rodney, to 1st Lt. Robert Warren DeMont, USA, son of Mr. and Mrs. George DeMont of Niles, Ohio.

Miss Schlanser

Miss Schlanser, who has been attending Duke University, where she is a member of the Delta Gamma sorority, is the granddaughter of Col. (USA-Ret) and Mrs. Dorsey R. Rodney of East Lansing, Mich., and of Col. (USA-Ret) and Mrs. Adam E. Schlanser of Washington, D. C. Her fiancé, USMA '59, is stationed with the 2d Armored Cavalry Regiment at Bindlach, Germany.

A June wedding is planned.

Chaplain Reiss Commended

Chaplain (Col.) William J. Reiss, Staff Chaplain, Continental Army Command, Ft. Monroe, Va., has been awarded the first Oak Leaf Cluster to the Army Commendation Medal.

He had previously been assigned as Fourth Army Chaplain at Ft. Sam Houston, Texas. His other decorations include the Purple Heart and the Bronze Star for Valor.

Chaplain and Mrs. Reiss reside at 109 Bernard Road, Ft. Monroe.

Mrs. Murray Is Welcomed

The Chemical Corps Wives Club held a welcome coffee 22 March in honor of Mrs. M. J. Murray, wife of Dr. Murray, new Chief Scientist of the Corps. It was held at the home of Mrs. W. H. Summerson, with Mrs. E. R. McDaniel as co-hostess.

Wives of Chemical Corps officers from the Second Army area will be special guests of the club at their monthly luncheon 28 March at Ft. McNair. Mrs. John G. Hossman, jr. is chairman of hostesses.

Helicat Reunion In Toledo

The 12th Armored Division (Helicat) Association will hold its 15th annual reunion at the Commodore Perry Hotel, Toledo, Ohio, 20-21-22 July 1961. Jack Miller, Lorain, Ohio, is President.

Details of the reunion may be obtained from Lawrence E. Mintz, 20020 Snowden Avenue, Detroit 35, Mich., Executive Secretary.

L/C Knoll At Eustis

Lt. Col. William F. Knoll has assumed the position of Assistant Chief (Surface), Transportation Technical Training Division at the Army Transportation School, Ft. Eustis, Va. He succeeds Lt. Col. Ambrose C. Arthur, who has been reassigned within the Transportation School.

Col. and Mrs. Knoll reside at 102 Woodhaven Rd., Newport News, Va.

Goeke, Henry K. MCS, Quant, to 1st Mar Brig.
Madden, Benjamin O. El Toro, Calif, to AirFMFPac.
McLeod, Sandy L. NAS, Jax, to 3d Mar Div.

RETIRED

Lt Colonel

Bryan, Leslie T, Jr. Barreiro, John R, Jr.
Jones, Paul M. Luckel, Raymond L.

Captain

Bomar, Oliver B, Jr, to temp disab ret list.
Mervish, Nathan. Werder, Robert J.

Chief Warrant Officer

Cotham, W-2 Robert B, to temp disab ret list.

Warrant Officer

Davison, John C

Schulz, Robert A. Academy (Designated Head, Seamanship Section).
Hendrickson, Harold T. HQ (EEE) to KLA-MOTH (CO).
Hoover, Richard E. CASCO (CO) to CGD1 Ch. Read. Br.).
Kobler, Jason S. CGD14 (Ch. Int. & L. E. Br., & CO, COTP Office) to CGD13 (Ch. p. Div.).
Levine, Lester A. HQ (Asst. Ch. OA Div.) to ABSECON (CO).
McCormack, Harold J. CGD13 (Dir. of Aux.) to CGD5 (Compt).
Natwig, John MENDOTA (XO) to HQ (Asst. Ch. PE Div.).
Paine, James W. MIO, New York (Duty) to SPENCER (CO).
Perry, Ellis L. HQ (ENE) to CGD1 (Ch. ene Br.).
Scharff, Charles W. MATAGORDA (CO) to CGD14 (Ch. oan Br.).

LIEUTENANT COMMANDER

Bloxson, Robert J. MENDOTA (Designated XO).
Edwards, Bruce H. MIT, Cambridge (Duins) to HQ (EEE).
Fenske, Carl A. CGD17 (Ch. ene Br.) to CGD9 (ame).
Ogin, Robert E. Base, Alameda (Duty) to DEXTER (XO).
Parkhurst, Robert D. CGD17 (Ch. ene Br.) to HQ (EEE).
Starr, Darrel W, Jr. Univ. of Mich. (Duins) to CGD17 (Ch. ene Br.).
Stewart, James P. HQ (EEE) to CGD17 (Ch. ene Br.).
Tooloose, George E. MATAGORDA (XO) to CGD14 (Ch. Int. & L. E. & CO, COTP Office).
Wilcox, Leland O. Moorings, New London (CO) to CGD5 (Dir. of Aux.).
Charleston, Maxwell S. CGD1 (p) to HQ (Asst. Ch. FB Div.).
Chelders, Earl S. CHINCOTEAGUE (Prep Gen Serv Duty-Difot) to CGAS, Elizabeth City (Difot).

LIEUTENANT

Coburn, Joseph L. Jr. MIT, Cambridge (Duins) to WINONA (EO).
Hill, Ralph C. MIT, Cambridge (Duins) to MINNETONKA (EO).
Howard, James L. MIT, Cambridge (Duins) to EASTWIND (Engr Duty).
Lehr, William E. MIT, Cambridge (Duins) to WESTWIND (Engr Duty).
Parker, Edwin L. MIT, Cambridge (Duins) to NORTHWIND (Engr Duty).
Roy, George J. CGAS, St. Petersburg (Difot) to Chanute AFB (Difotins) Cancelled.
Abbot, David L. CGD14 (oc) to DILLIGENCE (CO).
Bates, Laurence O. RTC, Yorktown (Duty) to GENERAL GREENE (CO).
Small, Jay A. Jr. MIO, Toledo (Duty) to MIO, Seattle (Duty).

Births • Marriages • Deaths

(No charge for Service announcements. Please print all names.)

Born

ABBEY—Maxwell AFB, Ala 14 Mar Capt (USAF) & Mrs Edward F Abbey of Wright-Patterson AFB, O, daughter, Lillian, granddaughter of the former Wing Surgeon in the CBI in WWII, Dr & Mrs E A Abbey of Pompano Beach, Fla.

ALBRIGHT—Sheppard AFB, Tex 14 Feb Capt & Mrs Donald J Albright, son.

BAILEY—Keesler AFB, Miss 11 Mar 1st Lt & Mrs Gardner S Bailey, daughter, Rebecca Jean.

BAUER—Sheppard AFB, Tex 12 Mar 2d Lt & Mrs Donald W Bauer, son.

BEHNKE—Ft Gordon, Ga recently Capt & Mrs Jerome R Behnke, son.

BLACK—Offutt AFB, Nebr 22 Feb Capt & Mrs Ira W Black, Jr, daughter, Katherine Bonesteel.

BOENIGHAUSEN—DeWitt AH, Ft Belvoir, Va 11 Mar Lt (Jg) (USN) & Mrs Thomas L Boenighausen, son.

BRADY—Ft Leavenworth, Kans 28 Feb Maj & Mrs Philip B Brady, son.

BRODY—Ft Ord, Calif 6 Mar Capt & Mrs Donald C Brody, 208 Bonn Rd, Ft Ord, daughter, Ann Louise.

BROWN—Ft Gordon, Ga recently Capt & Mrs John C Brown, son.

BYRNES—Ft Meade, Md 8 Mar CWO & Mrs Robert Byrnes, daughter.

CHILDERS—La Chapelle, St Mesmin, France 6 Mar Capt & Mrs Arle M Childers, 63d APU, APO 58, NY, daughter, Mona.

CLARK—Ft Leavenworth, Kans 31 Jan Lt Col & Mrs William J Clark, Jr, son.

CLUSMAN—Ft Meade, Md 10 Mar 2d Lt & Mrs Robert Clusman, son.

COLEMAN—USAF Academy, Colo 9 Mar Col & Mrs William T Coleman, daughter.

COLLAR—William Beaumont GH, El Paso, Tex 9 Mar 1st Lt & Mrs Robert D Collar, daughter.

COOKE—USAF Academy, Colo 14 Mar Capt & Mrs Charles M Cooke, daughter.

CORRAN—William Beaumont GH, El Paso, Tex 7 Mar Capt & Mrs Robert L Corrnan, daughter.

CUDMORE—USAF Academy, Colo 4 Mar 1st Lt & Mrs William T Cudmore, son.

DANIEL—Lackland AFB, Tex 12 Mar Capt & Mrs Robert S Daniel, daughter.

DAVIS—DeWitt AH, Ft Belvoir, Va 10 Mar Maj (USMC) & Mrs Joseph L Davis, son.

DEVERILL—DeWitt AH, Ft Belvoir, Va 10 Mar Capt & Mrs Arthur P Deverill, Jr, daughter.

EDELSON—Ft Leavenworth, Kans 26 Feb Feb & Mrs Marshall Edelson, daughter.

ESSROG—Ft Eustis, Va recently 1st Lt & Mrs S L Essrog, daughter.

EWALD—Walter Reed GH, Washington, DC 12 Mar 1st Lt & Mrs Roger A Ewald, son.

FARMER—Landstuhl, Germany 4 Mar 1st Lt & Mrs Jack R Farmer, Jr, 2d Gen Hosp, APO 180, NY, son, Jeffrey.

FEKETE—Neubucke, Germany 7 Mar 1st Lt & Mrs Alexander J Fekete, 544th Trans Co, APO 34, NY, son, Stephen.

FLAMMER—USAF Academy, Colo 14 Mar Capt & Mrs Philip M Flammer, daughter.

FLETCHER—Ft McClellan, Ala 18 Mar 1st Lt & Mrs George E Fletcher, daughter, Gina Laura.

FOLTZ—Ft Eustis, Va recently Maj & Mrs G H Foltz, daughter.

FOSTER—West Point, NY 11 Mar Maj & Mrs Guy H Foster, 64th Air Div, Stewart AFB, NY, son, Todd Taylor.

GAPP—Sheppard AFB, Tex 1 Mar Capt & Mrs Alvie W Gapp, daughter.

GARDES—William Beaumont GH, El Paso, Tex 8 Mar Capt & Mrs George Gardes, daughter.

GAUSVIK—Ft Meade, Md 13 Mar Capt & Mrs Robert Gausvik, daughter.

GEORGEFF—DeWitt AH, Ft Belvoir, Va 15 Mar Capt & Mrs Carl K Georgeff, daughter.

GRABOWSKI—Keesler AFB, Miss 11 Mar 2d Lt & Mrs Joseph E Grabowski, Jr, daughter, Desiree Emilia.

GRIMSHAW—Ft Leavenworth, Kans 9 Feb Lt Col & Mrs Charles M Grimshaw, daughter.

GUAY—Newport, RI 13 Mar Lt (Jg) (USN) & Mrs Paul E Guay, 84 Roseneath Ave, Newport, daughter.

HAGAUER—Ft Leavenworth, Kans 27 Jan Maj (USAF) & Mrs Richard W Haguer, son.

HAIDLER—USAF Academy, Colo 3 Mar Capt & Mrs William B Haidler, son.

HALL—Ft Leavenworth, Kans 4 Mar Capt & Mrs Wilmot A Hall, Jr, daughter.

HAMBLY—Neubucke, Germany 6 Mar Capt & Mrs Robert J Hambly, Hq 2d MTB, 6th Armored, APO 34, NY, daughter, Jo Ann.

HARRELSON—Frankfurt, Germany 9 Mar Capt & Mrs Charlie S Harrelson, Hq 2d How Bn, 6th Army, APO 59, NY, 5th son, Robert Steven, grandson of Mrs Corrie Harrelson, Columbia, SC, & of Lt Col (Ret) & Mrs Dana H Boone, Largo, Fla.

HARRIS—Ft Leavenworth, Kans 26 Feb Capt (USAF-Ret) & Mrs John B Harris, daughter.

HARVEY—Ft Gordon, Ga recently Maj & Mrs James V Harvey, son.

HILL—DeWitt AH, Ft Belvoir, Va 13 Mar Lt Col & Mrs John G Hill, son.

JANSEN—Ft Leavenworth, Kans 5 Mar Maj & Mrs Frank J Jansen, son.

JEWETT—Ft Leavenworth, Kans 21 Feb Col & Mrs Leonard G Jewett, daughter.

JOHNSON—Ft Leavenworth, Kans 3 Mar 1st Lt & Mrs Byron E Johnson, daughter.

JOHNSON—Sheppard AFB, Tex 24 Feb Capt & Mrs William D Johnson, daughter.

JOHNSTON—Walter Reed GH, Washington, DC 16 Mar 1st Lt & Mrs Lawrence Johnston, daughter.

KESZLER—William Beaumont GH, El Paso, Tex 4 Mar Lt & Mrs Lawrence W Keszler, daughter.

KING—La Chapelle, St Mesmin, France 10 Mar Capt & Mrs Charles R King, 2d Avn Co, APO 58, NY, daughter, Kimberly.

KISSINGER—Sheppard AFB, Tex 5 Mar Capt & Mrs Forrest E Kissinger, daughter.

LENIO—Ft Jay, NY 19 Mar Capt & Mrs Paul T Lenio, son, Peter Matthew.

LISET—DeWitt AH, Ft Belvoir, Va 13 Mar Maj (USAF) & Mrs John J Liset, daughter.

LOPEZ—William Beaumont GH, El Paso, Tex 8 Mar Capt & Mrs Charles A Lopez, daughter.

LOUGHRAN—Newport, RI 15 Mar WO & Mrs Thomas G Loughran, 10-A Woolsey Rd, Middletown, RI, daughter.

MAGNUS—Ft Ord, Calif 7 Mar Capt & Mrs Robert A Magnus, 1264 Hilltop Dr, Salinas, Calif, son, John Edward.

MARTINO—DeWitt AH, Ft Belvoir, Va 16 Mar Capt (USAF) & Mrs Joseph P Martino, son.

MASUGA—Neubucke, Germany 2 Mar 1st Lt & Mrs James J Masuga, B Btry, 5th Msl Bn, 6th Army, APO 34, NY, son, Scott Everett.

MCCLOSKEY—Keesler AFB, Miss 10 Mar Capt & Mrs Nel T McCloskey, daughter, Katharine Jane.

MCPORTLAND—Sheppard AFB, Tex 16 Feb 1st Lt & Mrs Robert A McPortland, daughter.

MILLER—Cp Wolters, Tex 5 Mar Capt & Mrs Billy G Miller, 3704 York St, Dallas 10, Tex, daughter.

MILLER—Sheppard AFB, Tex 3 Mar 2d Lt & Mrs Robert S Miller, daughter.

MINER—Walter Reed, GH, Washington, DC 15 Mar Capt & Mrs Lewis C Miner, daughter.

MINKEL—Landstuhl, Germany 2 Mar 1st Lt & Mrs Leo V Minkel, 603d AC & W Sq, APO 191, NY, son, Daniel.

MOORE—DeWitt AH, Ft Belvoir, Va 11 Mar Lt Col (USAF) & Mrs James M Moore, daughter.

MORN—William Beaumont GH, El Paso, Tex 9 Feb Capt & Mrs Charles P Morn, daughter.

MURRAY—Keesler AFB, Miss 12 Mar Capt & Mrs Robert M Murray, son, Christopher Druce.

NORMAN—Rodriguez AH, Ft Brooke, PR 12 Mar Capt & Mrs Jack L Norman, Chris John.

OGEZ—William Beaumont GH, El Paso, Tex 5 Mar Capt & Mrs John J Ogez, son.

OSTROM—Sheppard AFB, Tex 26 Feb 1st Lt & Mrs John C Ostrom, son.

OXRIEDER—Ft Meade, Md 9 Mar 1st Lt & Mrs Charles Oxrieder, daughter.

PALADINO—USAF Academy, Colo 9 Mar Maj & Mrs John L Paladino, son.

PALAUUSKY—Sheppard AFB, Tex 7 Mar 2d Lt & Mrs Edward J Palauusky, daughter.

PERRY—William Beaumont GH, El Paso, Tex 3 Mar Capt & Mrs John M Perry, daughter.

POOLE—Lackland AFB, Tex 16 Mar 1st Lt & Mrs David F Poole, son.

POWELL—Landstuhl, Germany 5 Mar Capt & Mrs Walter G Powell, 619th Ord Co, APO 227, NY, son, Michael.

QUINN—Ft Eustis, Va recently Capt & Mrs W J Quinn, daughter.

REDDITT—Keesler AFB, Miss 12 Mar 1st Lt & Mrs William M Redditt, 3d, son, Steven Neal.

REID—Cp Lejeune, NC 13 Feb Maj (USMC) & Mrs James H Reid, Jr, USMC, MOQ 3368 MCMS, Cp Lejeune, son, James Herbert, 3d.

ROSEN—Ft Leavenworth, Kans 18 Feb Col & Mrs Melvin H Rosen, son.

ROTH—Walter Reed GH, Washington, DC 10 Mar Maj & Mrs Joel L Roth, son.

SABO—William Beaumont GH, El Paso, Tex 6 Mar 1st Lt & Mrs Edward L Sabo, daughter.

SAXBY—Ft Leavenworth, Kans 27 Feb Lt Col & Mrs Edward S Saxby, son.

SCHWARZ—Keesler AFB, Miss 11 Mar Capt & Mrs Richard H Schwarz, son, Paul Howard.

SEEM—DeWitt AH, Ft Belvoir, Va 15 Mar Maj & Mrs Donald L Seem, son.

SHOEMAKER—Hong Kong, BCC, 21 Feb Col (USA) & Mrs Samuel E Shoemaker, son, Robert Lyle.

SMITH—Ft Leavenworth, Kans 27 Feb Capt & Mrs William D Smith, daughter.

SMOTHERMAN—DeWitt AH, Ft Belvoir, Va 14 Mar Lt Col (USAF) & Mrs Benjamin F Smotherman, daughter.

STACK—Stuttgart, Germany 16 Mar Col & Mrs Robert C Stack, third daughter & eighth child.

STOKES—Sheppard AFB, Tex 2 Mar 2d Lt & Mrs Leland L Stokes, son.

STOUT—Ft Eustis, Va recently 2d Lt & Mrs R C Stout, daughter.

STYVE—Ft Eustis, Va recently Maj & Mrs L O Styve, daughter.

TAYLOR—Sheppard AFB, Tex 7 Mar 1st Lt & Mrs Vyrie J Taylor, daughter.

TRAYERS—Ft Leavenworth, Kans 3 Mar Capt & Mrs James L Trayers, son.

TREGONING—Lackland AFB, Tex 12 Mar 1st Lt & Mrs Paul C Tregoning, daughter.

WAGNER—Lackland AFB, Tex 9 Mar Capt & Mrs Donald B Wagner, son.

WATERS—William Beaumont GH, El Paso, Tex 3 Mar 2d Lt & Mrs Ray A Waters, son.

WOGSLAND—Sheppard AFB, Tex 11 Feb Capt & Mrs Lloyd L Wogsland, son.

WOLF—Sheppard AFB, Tex 20 Feb 2d Lt & Mrs Richard L Wolf, son.

WILLIAMS—Wurzburg, Germany 6 Mar 1st Lt & Mrs Donald B Williams, A Btry, 9th Arty, APO 36, NY, son, Eric Scott.

WILLIS—Sheppard AFB, Tex 3 Mar Maj & Mrs Albert S Willis, daughter.

Married

EINSPRUCH-GERKENS—The Jerusalem Evangelical Lutheran Church, Baltimore, Md 11 Mar Miss June Rose Gerkens, daughter of Mr & Mrs John Joseph Gerkens, Baltimore, and Ens Henry Einspruch, Jr, USN, son of the Reverend Dr & Mrs Henry Einspruch, Baltimore.

HUMPHREY-BUCHANAN—Christ Protestant Episcopal Church, Short Hills, NJ 15 Mar Miss Margaret Alverta Buchanan, daughter of Mrs Joseph Thomas Buchanan, Short Hills, & the late Mr Buchanan, and Ens Henry Horton Humphrey, Jr, USN, son of Mrs Humphrey, Summit, NJ, & the late Mr Humphrey.

MULROONEY-LORD—The US Naval Academy Chapel, Annapolis, Md 18 Mar Miss Carol Sylvia Lord, daughter of Mr & Mrs J Wilson Lord, Jr, Catonsville, Md and Lt (Jg) Robert Michael Mulrooney, USN, son of Mr & Mrs Michael Patrick Mulrooney, New York City.

STITT-KEENE—The Hitchcock Presbyterian Church, Scarsdale, NY 18 Mar Miss Susan Keene, daughter of Mrs Charles Keene & the late Mr Keene, and Ens William Britton Stitt, Jr, USNR.

STRAWBRIDGE-ROCKEFELLER—The Riverside Church, New York City 18 Mar Miss Mary Clark Rockefeller, daughter of Governor & Mrs Nelson A Rockefeller, and Ens William Justice Strawbridge, Jr, USNR, son of Mr & Mrs Strawbridge, sr, Haverford, Pa.

Died

AYERS—Died 10 Mar Lt David W Ayers, USN.

BATES—Died Shreveport, La 18 Mar Mrs Martha J Bates, widow of Col Walter H Bates, USA-Ret, and daughter of the late Maj Gen (USA) & Mrs William A Jones. Survived by two grandchildren, Mrs Lee Truman & Mrs Edwin M Hughes, 513 Mockingbird Ave., Shreveport. Burial Arlington National Cemetery, Washington, DC, with family requesting expressions of sympathy be in the form of contributions to the Army Distaff Foundation, 6200 Nebraska Ave, NW, Washington.

BERTRANDIAS—Died suddenly at his home at Beverly Hills, Calif 18 Mar, of a heart attack, Maj Gen Victor E Bertrandas, USAF-Ret, 65, widely known as the "Father of Flying Safety" in the Air Force; veteran of WWI, when he served with Capt Eddie Rickenbacker, and WWII, when he was on the staff of General Douglas MacArthur. He was a former Vice President of Douglas Aircraft Co. Survived by his widow, Mrs Marguerite Fitzgerald Bertrandas, 1495 Carla Rd, Beverly Hills, Calif; and one son, Mr Richard Bertrandas, a Radio Liberty executive in Munich, Germany. Burial Arlington National Cemetery, Washington, DC.

CAGNEY—Died at his home at the Army General Depot, Schenectady, NY 18 Mar, of a heart attack, Lt Col Walter J Cagney, USA, 49, where he was serving as Transportation Officer. Survived by his widow, Mrs Joyce B Cagney, Army General Depot, Schenectady; four daughters, Joyce, Raula, Barbara & Linda Cagney, and one son, Walter Cagney. Burial Arlington National Cemetery, Washington, DC.

GREENE—Died Walter Reed GH, Washington, DC 13 Mar Col Claude E Greene, USAF-Ret. Burial Arlington National Cemetery.

GRIMES—Killed in the crash of a jet attack bomber near NAS, Patuxent, Md 18 Mar LCdr William E Grimes, USN, 37.

IRWIN—Died Knoxville, Tenn 11 Mar of a cerebral hemorrhage, Mrs Jean K Irwin, wife of Col Carlisle B Irwin, USA-Ret, 3037 Gibbs Rd, Fountain City, Tenn, and daughter of the late Col (Cav, USA) and Mrs William J Kendrick. In addition to her husband, she is survived by one son, Sp4 William K Irwin, Ft Meade, Md; one daughter, Mrs Lawson I Hickok, 10 Allwood Ct, Alexandria, Va, and two sisters, Mrs Neil K Whiteman, Atlanta, Ga, & Mrs Frank A Osmanski, wife of Colonel Osmanski, Ft Shafter, Hawaii. Burial National Cemetery, Knoxville, Tenn.

KNISKERN—Died USNH, St Albans, LI, NY 19 Mar RADM Leslie A Kniskern, USN-Ret, (USNA '22). Survived by his widow, Mrs Mary P Kniskern, 761 Park Ave, Munsey Park, Manhasset, LI; and one son, John Kniskern, Des Moines, Wash.

KOENIG—Died Sheppard AFB, Tex 28 Feb Mrs Ira R Koenig, 65, wife of Colonel Koenig, USAF-Ret, 2529 Fain Ave, Wichita Falls, Tex. Burial Belfontaine Cemetery, St Louis, Mo.

LENTZ—Killed in the crash of an aircraft, near Kirtland AFB, NMex 10 Mar 1st Lt Dana C Lentz, USAF, (USAF '59), 23, son of Col & Mrs Emmert C Lentz, Hamilton AFB, Calif. Also survived by his brother, Cadet Gary D Lentz, USAFA '62. Burial Air Force Academy Cemetery.

MERZ—Killed in the crash of an aircraft, near Kirtland AFB, NMex 10 Mar 1st Lt Melvin J Merz, USAF, (USAF '59), 23. Survived by his mother, Mrs Frank A Merz of St Louis, Mo. Burial St Louis.

MUNLEY—Died Walter Reed GH, Washington, DC 13 Mar Col William C Munley, Ret. Burial Arlington National Cemetery.

ROBBINS—Died Long Beach, Calif 14 Mar Mrs Esther D Robbins, widow of Lt Col Alfred McCallum Robbins, USMC-Ret. Burial Arlington National Cemetery, Washington, DC.

RODDY—Died at the home of his son at Feasterville, Pa 17 Mar Mr John A Roddy, 79, father of Lt Col Francis J Roddy, sr, Ret, 111 Pine Rd, Feasterville. Also survived by his grandson, 2d Lt F J Roddy, Jr.

SPARGER—Died White Sands Missile Rge, NMex 15 Mar CWO Allen J Sparger, Staff Secretary for the WSMR Command. Survived by his widow, Mrs Ruth Sparger; one daughter, Nancy; two sons, William & James Sparger, and his mother, Mrs H D Sparger, Durant, Okla.

WARD—Died Colorado Springs, Colo 14 Mar Lt Col James F Ward, Jr, USAF, 42. Survived by his widow, Mrs Kathryn S Ward, Colorado Springs; three children, Wendy, LaJuan & Teri Ward; his parents, Colonel (USA-Ret) & Mrs Ward, sr, Bradenton, Fla; one sister, Mrs Peggy Ballard, Bradenton, and one brother, Maj Robert M Ward, USA, 2263 No Vernon St, Arlington, Va. Burial Arlington National Cemetery.

Space Research

From page 3—

space medicine research facility at the NASA Ames Research Center, Moffett Field, Calif.

The Moffett Field facility reportedly would cost millions of dollars even though existing buildings would be used. It would study such fields as weightlessness and radiation in support of future manned space flights after the Mercury series.

Air Force medical officials contend that such a facility would duplicate in large part facilities already in use at Holloman AFB, N. M., the Aerospace Medical Center, Brooks AFB, Tex., Patrick AFB, Fla., and at Wright-Patterson AFB, Ohio. Asked this week whether Secretary McNamara's space directive encompassed space aspects of medical R&D, Defense officials told THE JOURNAL that they were "not entirely certain that aerospace medical research and development would not be covered."

They said that the exact effect of the directive on the field of military medical research has yet to be fully determined.

Apparently fearing to be involved in a public inter-Service dispute, Army Medical R&D Command officials declined to answer inquiries on the relationship of current research programs to the space field.

3 Stars For Gen. Shapley

President Kennedy has nominated Maj. Gen. Alan Shapley, USMC, for the grade of lieutenant general.

At the same time, the nomination of Lt. Gen. Thomas A. Wornham, USMC, to be a lieutenant general on the retired list was sent to the Senate.

Text Of AF Reorganization Statement

(The following is the text of the Pentagon announcement concerning reorganization of the Air Force to establish the Systems Command and the Logistics Command.)

The Secretary of Defense today announced a reorganization of Air Force systems management designed to centralize direction of the ballistic missile programs and to insure the most effective discharge of those military space responsibilities assigned to the Air Force.

The reorganization, which follows extensive Air Force studies of ways to improve systems management, was recommended by Eugene M. Zuckert, Secretary of the Air Force, and General Thomas D. White, Air Force Chief of Staff, and will be completed by July 1, 1961. It will involve minimum relocation of personnel and facilities.

All activities concerning the acquisition and development of aircraft and missile systems, some of which are now carried on by the Air Research and Development Command and some by the Air Materiel Command, will be consolidated in a new command to be known as the Air Force Systems Command.

The new command will have its headquarters at Andrews Air Force Base, near Washington, D. C., and will be commanded by Lieutenant General B. A. Schriever, now commander of the Air Research and Development Command at Andrews.

Research elements of the Air Research and Development Command will be placed in a new Office of Aerospace Research, reporting directly to the Chief of Staff, U. S. Air Force.

The Air Materiel Command, which has its headquarters at Wright-Patterson Air Force Base, Dayton, Ohio, will be redesignated the Air Force Logistics Command under AMC's present commander, General Samuel E. Anderson. The Air Force Logistics Command will operate and control the worldwide logistics systems which will support the entire Air Force. The Command will have a strength of some 165,000 people and will direct a multi-billion dollar business.

The Air Force Systems Command will have these four divisions:

1. The Ballistic Systems Division, composed of elements of the ARDC Ballistic Missile Division and the AMC Ballistic Missile Center, which operate side by side in California, and the Ballistic Missile Office of the Army Corps of Engineers, which is in charge of ballistic missile base construction.
2. The Space Systems Division also composed of present elements of the ARDC Ballistic Missile Division and the AMC Ballistic Missile Center.
3. The Aeronautical Systems Division at Wright-Patterson Air Force Base, Dayton, Ohio, in which will be combined the Wright Air Development Division of ARDC and the Aeronautical Systems Center of AMC.
4. The Electronics Systems Division at Hanscom Field near Boston, where the Command and Control Development Division of ARDC and the Electronics Systems Center of AMC will be combined.

Plans call for the assignment of the Contract Management Regions of AMC to the Air Force Systems Command at a later date.

Contractors and bidders should continue to deal with the offices with which they have been dealing unless and until they are advised of changes as the reorganization takes effect in detail.

Each new division of the Air Force Systems Command will have representation from using commands, such as the Tactical Air Command and the Strategic Air Command, and—in cases where the divisions are doing work for the Army, Navy and the National Aeronautics and Space Administration—from those organizations. There will be maximum participation by the Air Force Logistics Command throughout all phases of the systems acquisition cycle.

Each of the new divisions will provide

the capability of managing the acquisition of assigned system programs. As an example, the Commander of the Ballistic Systems Division will have available all the management resources required for the development, test, evaluation, procurement, production, site activation and planning for the support and operation of ballistic missiles. He will have a Deputy for Site Activation who will be in charge of facility design, construction, installation and checkout. Brig. Gen. A. C. Welling of the U. S. Army Corps of Engineers has been selected to fill this position. In the field, at each operational location, the present site activation task forces of AMC will be combined with existing field detachments of ARDC and the Corps of Engineers' detachments to form an integrated team responsible for the complete site activation task.

The new Office of Aerospace Research, which will report directly to Headquarters, U. S. Air Force, will be composed of the present Air Force Research Division with its field laboratories, the Aeronautical Research Laboratory at Wright-Patterson Air Force Base and the Cambridge Research Laboratories at Hanscom Field (all now assigned to ARDC). This change is designed to insure continued high level recognition and attention to the Air Force's basic research activities. The rearrangement is designed also to insure close coordination between the Office of Aerospace Research and other scientific agencies.

Review and approval channels for all high priority systems are being streamlined throughout the Air Force to speed up the decision-making process.

WWII Infantrymen: Convair Official Gets Comptroller Task

John W. Dixon has been appointed to the newly established position of Consultant for Systems Planning in the office of Assistant Secretary of Defense (Comptroller) Charles J. Hitch.

A Pentagon announcement said Mr. Dixon "will play a major role in the development of improved budget accounting and information systems for the Department."

Prior to his appointment, Mr. Dixon had been associated with the Convair Division, General Dynamics Corporation, for more than seven years. His last post with Convair was as Assistant to the Vice President for Planning.

During WW II, Mr. Dixon served as a combat infantryman in the European Theater. Inducted into the Army in November, he attended The Infantry School at Ft. Benning, Ga., where he received his commission. After more than two years overseas service where as a First Lieutenant he earned the Combat Infantryman's Badge, he returned to civilian life in February 1946.

Mr. Dixon, 40, received his B.A. degree from The George Washington University, Washington, D. C., in 1949. In 1950 he was awarded a fellowship as instructor of economics at the University of Miami, and the following year received his M.A. degree in economics from that institution.

In 1951, Mr. Dixon was employed as a wage analyst in the Bureau of Labor Statistics, Department of Labor. From 1951 to 1953 he was Assistant Professor of Economics at Mississippi Southern College.

den, upon which the Comptroller gave his opinion, specifically stated that he would not be required to perform any actions that violate the contract of interest laws.

The contract also said, however, that General Selden "shall be required to visit military installations, and to consult with various officials in order to ascertain current and ascertain future military needs and problems so that he can advise Employer with respect to the best utilization of Employer's current product line and to suggest new lines of potential product development."

The Comptroller said that his previous decisions held that "any activity calculated to induce the purchase of

VERSION OF "FREEDOM FIGHTER"

ATC Accepts Supersonic Northrop T-38 Following Show Of High Performance

RANDOLPH AFB
SAN ANTONIO, TEX.

THE Air Force's newest aircraft—the supersonic, light weight, twin-jet T-38 Talon—was accepted into the Air Training Command inventory after an impressive demonstration of its high performance capabilities in ceremonies here 17 March.

The acceptance ceremonies were opened with a call broadcast from the T-38 to the awaiting crowd from Lt. Col. Arthur Buck, ATC Project Officer and pilot of the incoming Talon, while he was over Austin, Tex., more than 60 miles away. In 4½ minutes Colonel Buck passed over the crowd here with a sonic boom to signal the opening of the event.

When the T-38 swept by the reviewing stand, Col. W. L. Helmantoler, Master of Ceremonies, announced that the Mach 1.2 aircraft is faster than any aircraft ever employed by the U. S. Air Force in combat.

The project officers were particularly pleased that the manufacturers, the Northrop Division of the Northrop Corporation, met the delivery date, to a day, set three years ago when the aircraft was still in the development state.

The T-38 is the trainer version of the Northrop N-156 single seated "Freedom Fighter" designed as a light weight, low cost, low fuel consumption and easily maintained fighter for our NATO allies. The "Freedom Fighter" is equipped with slotted wings and parachute brakes so that it can operate from short runways. It is equipped with brackets on wings and fuselage enabling it to carry 3,000 pounds of external stores such as rockets and missiles.

The T-38 trainer is tandem seated with the instructor's seat somewhat higher than the student's. It has a ceiling of 55,000 feet and a range of 1,000 miles. It is 44 feet long, 12.9 feet high, and has a wing span of 25.25 feet. It weighs only 11,600 pounds.

The Talon is powered by two General Electric J85-5 jet engines with afterburners delivering 3,850 pounds thrust each with afterburner on and 2,500 pounds without afterburner. The J85-5 weighs only 538 pounds, is 108.8 inches long and 20.2 inches diameter. Its power-to-weight ratio is 7.2:1 and at its normal continuous rating of 2,050 pounds of thrust has a specific fuel consumption rating of only 0.98.

The Talon was formally accepted by Lt. Gen. James E. Briggs, ATC Commander.

The ceremonies here were featured by a fly-by of earlier Air Force trainers including a 1914 Curtiss pusher, a Stearman PT-17, a Ryan PT-22, a North American T-6, a North American T-28, and a Beech T-34. Also in the show were the Cessna T-37 twin-jet primary trainer, and a Lockheed T-33 jet trainer.

In the T-6 were both Walter "Wrong Way" Corrigan and Maj. Gen. Robert Stillman, Commander of the Lackland AFB Training Center. Neither would say which one was flying it.

Present for the ceremonies was Maj. Gen. Benjamin D. Foulis, USAF-Ret., who began solo flights in "Aeroplane No. 1" of the military services on 2 March 1910 at San Antonio, and his crew chief of 51 years ago, Col. Vernon L. Burge, USAF-Ret. General Foulis inspected the new T-38 and praised its high performance and clean lines.

Also present were Thomas V. Jones, President and Chief Executive officer of Northrop Corporation, and Gerhard Neumann, General Manager of General Electric's Small Aircraft Engine Department.

Also present was Capt. John S. Hill, USN, representing the Naval Aviation Training Center at Pensacola, Fla.

Speaking at a luncheon following the acceptance ceremony were General Briggs and Lt. Gen. Truman H. Landon, Deputy CofS Personnel.

All Services At "Salute To Industry"

REPRESENTING all five branches of the Armed Services and Congressman Thomas N. Downing are shown at the recent "Army Salutes Industry" exhibit at Ft. Eustis, Va. Left to right with the Congressman are Maj. Gen. Marvin McNickle, TAC Deputy for Materiel at Langley AFB, Va.; Lt. Gen. Joseph C.

Burger, CG, Fleet Marine Force, Atlantic; General Herbert B. Powell, CG of CONARC, Ft. Monroe, Va.; RAdm. H. E. Wales, First Naval District, Norfolk, and Capt. Louis M. Thayer, Jr., USCG, CO of the Coast Guard Reserve Training Center, Yorktown, Va.

Comptroller General Issues Ruling Which Bars "Contacts" By Service Retired

RETIRED Navy officers—and possibly their counterparts in the Army and Air Force—have been put on notice that mere contacts with their former Service while working for a Government contractor could send them to jail and mean loss of military retired pay for life.

In a new decision affecting the right of Lt. Gen. John T. Selden, USMC-Ret., to work for the Military Supply Company, Comptroller General Joseph Campbell said that the General is forbidden by the conflict of interest laws to consult Navy officials to determine what requirements might exist for products which General Selden's company might want to produce.

A proposed contract for General Sel-

den, upon which the Comptroller gave his opinion, specifically stated that he would not be required to perform any actions that violate the contract of interest laws.

The contract also said, however, that General Selden "shall be required to visit military installations, and to consult with various officials in order to ascertain current and ascertain future military needs and problems so that he can advise Employer with respect to the best utilization of Employer's current product line and to suggest new lines of potential product development."

The Comptroller said that his previous decisions held that "any activity calculated to induce the purchase of

work, the Comptroller said, "he is subject to the statute" which can both take away his military retired pay and send him to jail.

Under the statute, 10 USC 6112b, retired Regular Navy officers are prohibited for life from selling or negotiating to sell "supplies and war materials" to the Navy. The term "supplies and war materials" has been held to include all tangible products, including Coca-Cola and five cent combs, but excluding personal and professional services.

A similar, though not identical statute applies to Army and Air Force officers within two years of their retirement.

JOURNAL CLASSIFIED

For only 14 cents a word (\$1.40) minimum, you can reach a worldwide audience through the classified advertising columns of the "Spokesman of the Services."

The Journal is the only weekly publication which covers all the U. S. Armed Forces. This assures top caliber impact for your message.

Deadline for insertions is 5 p.m. on Tuesday. Payment must accompany insertions. Write: Army Navy Air Force Journal, 1710 Connecticut Avenue, Washington 9, D. C., in the Capital area, phone: HObart 2-1220 and ask for Mrs. Heward.

Management School "Creative Thinking" Seminar Wins Top Pentagon Attention; Industry-Service Session Could Lead To Army-Wide Adaptation Of Technique

THE success of a three-day Military Creative Problem Solving Seminar at the Army Management School at Ft. Belvoir, Va., has prompted top officials at the Pentagon to survey the feasibility of adapting the so-called "brainstorming" technique on an Army-wide basis.

During recent years, senior Army civilian and military leaders have been seeking methods to encourage vitalized thinking at all echelons.

The Management School Seminar, conducted without cost to the Government by the Creative Education Foundation of Buffalo, N. Y., may provide an important guideline in this area.

Col. W. W. Culp, Commandant, told THE JOURNAL that the success of the pioneer Creative Problem Solving Seminar at the Management School "provides great encouragement to those of us who believe that the techniques employed have a great potential in the Armed Forces."

Colonel Culp said that the comments he has received from Service and Industry participants alike "show the need to provide additional outlets within the military framework for unshackled, creative thinking."

Attending the Military Creative Problem Solving Seminar were:

MAJOR GENERALS

Dewey, Lawrence R., Chief, USA Audit

Agency; and Palladino, Ralph A., Mil Exec of the Reserve Forces Policy Bd, DOD.

Curtiss-Wright Announces Program To Revitalize Its Role In Defense Work

T. Roland Berner, Chairman and President of the Curtiss-Wright Corporation, has outlined to stockholders a broad program to revitalize the company's traditional role in National Defense.

"To that end," Mr. Berner said, "our personnel have been instilled with an appreciation of the importance to National Defense of the company's contributions, past, present and future. I have personally acquainted many key government officials with this concept."

He pointed out that the firm faces the challenge of offsetting the decline in their aircraft engine business. The two

ways of doing this, he said, are: 1) through full exploitation of products which they now have or which are under development, and 2) through acquisition of new products.

Curtiss-Wright, Mr. Berner said, has made promising beginnings in the military missile field and has received new orders for rocket motor cases, missile launching rails and other components for aerospace vehicles. Nuclear rod controls being produced for nuclear submarines of the Polaris class were also mentioned, as were extruded "T" sections for the Navy.

INDUSTRY IN DEFENSE

Artist's Conception Of Lockheed C-141 Turbofan

THIS is an artist's conception of the new turbofan-powered transport to be built by Lockheed's Georgia Division for the Air Force to modernize MATS. It will be capable of transporting 60,000 pounds of cargo 3,400 miles—or 20,000 pounds non-stop from California to Japan, 6,325 miles.

The ocean-spanning carrier is approximately twice the size of the C-130 Hercules, prop-jet troop and cargo transport. Lockheed, winner in Air Force competition to build more than 100 of the aircraft, will subcontract more than 50% of the job.

Marines Get First Lockheed GV-1s

America's first prop-jet propelled aerial tanker, the Navy's new GV-1 Hercules, has joined the U. S. Marines' Third Aircraft Wing at El Toro, Calif.

The GV-1 is the first new type plane to join Naval-Marine forces as the services celebrate the Golden (fiftieth) Anniversary of Naval Aviation.

Two of the giant 4-engine planes flew from the Lockheed plant at Marietta, Ga., as the GV-1 began fleet service with the Fleet Marine Force, Pacific.

Besides being the first turbo-prop tanker, the Lockheed-made plane is the first mid-air refueler that can be converted in several hours to an assault transport.

Flying the GV-1s more than six-miles-a-minute, Marine Corps airmen commanded by Col. Robert White of Squadron VMR-352, landed the tanker-transports at El Toro for ceremonies on 15 March. Maj. Gen. Carson A. Roberts, Third Wing Commanding General, flew with the No. 1 GV-1 from the Lockheed Georgia factory.

Officials present included Maj. Gen. S. S. Jack, Commanding General of the Aircraft Fleet Marine Force, Pacific; Maj. Gen. Marion L. Dawson, Commanding General of Marine Corps airbases in the western area; Courtlandt S. Gross, President of Lockheed Aircraft; Dan J. Haughton, Lockheed Executive Vice President; and A. Carl Kotchian, Lockheed Group Vice President Aircraft.

The two-in-one tanker-transport is development of the Lockheed C-130B Hercules used by troop carrier wing of the Air Force.

Supersonic Experience

U. S. Armed Services are building up supersonic flying experience at the rate of 1,000 hours daily, with 400 hours a day the total for all other Free World countries.

Shillelagh Award Goes To Aeronutronic

The Army has awarded a \$5.3 million contract to Ford Motor Company's Aeronutronic Division, Newport Beach, Calif., for continuation of the development of the still-secret Shillelagh missile.

Announcement of the contract was made by Col. Paul Scordas, Commander of the Los Angeles Ordnance District, Pasadena, and Gerald J. Lynch, Vice President of Ford's Defense Products Group and General Manager of Aeronutronic Division.

CWO Hudson At ARADCOM

CWO Paul S. Hudson has assumed duties as a Technical Inspector in the I. G. Section at Army Air Defense Command Headquarters in Colorado Springs. He comes from Rocky Point, N. Y., where he was with Battery D, 3rd Missile Battalion, a Nike missile unit.

Mr. Hudson is married and has four children. The family lives at 1731 Querida Drive, Colorado Springs.

President Halligan Of Hallicrafters Calls For Chicago Effort To Gain Defense Work

Newly-elected Hallicrafters President Robert F. Halligan has called for a "dynamic, all-out effort by industry, political representatives, universities and the press" to restore a greater percentage of the nation's military electronics dollar to the Chicago area.

He said the area's share of the defense dollar has been declining while government expenditures in this field have been rising.

Mr. Halligan cited Department of Commerce estimates which show the Chicago metropolitan area in sixth place in military electronics shipments, accounting for 2.7% of the total government electronics business of \$5 to 6-billion dollars per year. The report shows the New York area leading the nation with 15.33% of the military electronics business, followed by Los Angeles, Philadelphia, Boston, and Baltimore.

"This is a sorry record for an area which leads all other metropolitan areas by a wide margin in total military and commercial electronic shipments," Mr. Halligan said.

The electronics executive proposed a four-point program for Chicago "to capture its fair share" of military electronics business.

1. Political action by the elected representatives of Chicago and the state of Illinois.

The new award brings the current contract total on the Army Shillelagh missile program to \$20 million.

The Shillelagh is a surface-to-surface anti-tank guided missile designed for close-in support of front-line troops. It will greatly increase fire power against armor as well as troops and field fortifications. Vehicle mounting is one application of the missile system, an Aeronutronic announcement said.

Hughes GAR-11 Falcon Tested At Tyndall

A NEW Falcon missile, the Hughes GAR-11, is being tested by the 4750th Test Squadron at Tyndall AFB, Fla. This weapon, the first air-to-air guided missile with a nuclear capability, was delivered to ARDC last year for tests.

Category III at Tyndall is an environment test which determines if the weapon is suitable for use by the Air Defense Command. If these tests are positive, Air Defense Command units equipped with the F-102 Delta Dagger all-weather interceptors will receive the new missile.

During the past year the "non-firing" portion of the test has been conducted by the Test Squadron. This was a series of tests on the modified fire control system of the F-102A/MG-10/GAR-1 Weapon System. This included the addition of countermeasure capability against noise-jamming targets.

According to the project officers, Capt. Glenn D. Dean and Capt. Herman L. Knapp, the firing program tests are scheduled to start this summer with a practice (non-nuclear) version of the missile.

Firing will be against the new Q-2C drone targets, the QF-80 and QB-47 drone aircraft over the Gulf of Mexico firing range. The drone aircraft will be controlled from Eglin AFB, Fla., and the Q-2C drone from Tyndall.

In order to start the qualification of pilots and to integrate the first tactical units for the GAR-11, Captain Knapp and Captain Dean will visit all F-102A fighter-interceptor squadrons in ADC to brief pilots and crewmen on the new fire control system necessary for the new weapon. These briefings are scheduled within the next month.

According to a Hughes Aircraft Company spokesman, the Nuclear Falcon, guided by radar, will be carried in mixed loads with other falcons, the GAR-1D and GAR-2A which are also designed for the F-102.

The GAR-11 is larger than any of the earlier missiles of the Falcon family. Hughes officials stated the GAR-11 would be particularly valuable in head-on attacks against supersonic bombers. Because of its rapid closing rate between interceptor and bomber, pinpoint accuracy is difficult but the missile overcomes the problem through its ability to steer itself toward target and the force of its nuclear blast.

Hercules Contract Awarded

The Army has awarded a \$1.9 million contract to the Western Electric Company for engineering documentation of the Nike Hercules air defense system.

Western is prime contractor for the Hercules, The Army Rocket and Guided Missile Agency, an element of the Army Ordnance Missile Command at Redstone Arsenal, Ala., is technical supervisor of the system.

RCA Names Associate Military Systems Director

Dr. Morris Handelsman, a WWII Army officer, has been promoted to Associate Director of Advanced Military Systems, Defense Electronic Products, Radio Corporation of America, it is announced by Executive Vice President, Arthur L. Malcarney.

He replaced David Shore, who assumed special project duties elsewhere in the corporation.

For the past two years, Dr. Handelsman has been a member of the Technical Staff of AMS, an organization established by RCA at Princeton to create and develop new and advanced weapon systems concepts. Prior to his promotion, Dr. Handelsman's work has been in the field of Undersea Warfare at AMS.

Before joining Advanced Military Systems, Dr. Handelsman was Associate Director of Research and Development at Rome Air Development Center, Griffis AFB, N. Y., where he was concerned with development of systems in radar, countermeasures and communications.

Vandenberg Aerojet Manager

Donald E. Rialson, former Aerojet-General Corporation Assistant Base Manager, Atlantic Missile Range, has been appointed the company's Technical Services Base Manager at Vandenberg AFB, Calif. During WWII he served with the Air Force.

Temco Unit Gets C-130 Hercules Task

Temco Overhaul and Aerosystems at Greenville, Tex., has been awarded a \$1.5 million letter contract by the Air Materiel Command for modification of a number of Lockheed C-130A Hercules turbo-prop transports to accept instrumentation equipment, including equipment for tracking the Polaris missile.

Dollar value of the definitive contract is expected to be approximately \$3 million.

E. Fred Buehring, Vice President and Division Manager of the Ling-Temco Electronics unit, said that the contract is scheduled for completion during this calendar year and that aircraft maintenance is included in addition to modification. Engineering already is in progress at Greenville and at two other Ling-Temco divisions—Temco Missiles and Aircraft and Temco Electronics—at Garland, Tex.

Bell Aerosystems Promotes Executives

William M. Smith has been appointed Vice President and Manager of Bell Aerosystems Company's Aerospace Rockets Division, Buffalo, N. Y., and Frank H. Andrix has been named Assistant Vice President and Director of Engineering for the company's Avionics Division, President William G. Gisel has announced.

Mr. Smith replaces James N. Davis, who resigned to accept a Defense Department appointment as a Deputy Assistant Secretary of Defense.

Previously Assistant Vice President and Director of Engineering for the Aerospace Rockets Division, Mr. Smith has served in engineering and management capacities with Bell for more than 20 years.

Mr. Andrix, who has been Director of Engineering for the Avionics Division since 1956, began his career with Bell in 1946 when he was appointed Chief Servomechanisms Engineer.

Mr. Smith resides with his wife at 183 Hunters Lane, Williamsville, N. Y.

Mr. Andrix, his wife and children live at 4242 Lower Mountain Rd., Lockport, N. Y.

B/G Crawford Is Senior Speaker; Northrop Radioplane Names Capt. Russell

Capt. Hawley Russell, USN-Ret., has been appointed Director of Export Requirements for Radioplane, a Division of Northrop Corporation, it is announced at Van Nuys, Calif., by M. W. Tuttle, Vice President and General Manager of Radioplane. Captain Russell will establish his office in Paris at the Northrop International Headquarters, 12 Avenue Hoche. He will operate under the direction of Vice President Alex W. Callam, and will provide European contact for Radioplane customers.

During his career he was Director of Naval Aviation Training at Pensacola, Fla.; Executive Officer of the Carrier Tarawa; Commanding Officer of the Carrier Valley Forge with the Sixth Fleet in the Mediterranean area, and in WWII commanded a fighter squadron in the South Pacific where he distinguished himself in aerial combat by becoming an ace.

Brig. Gen. James B. Crawford, USA-Ret., USMA '11, and Assistant Professor of Mathematics at Auburn University from 1948 through 1958, was senior speaker at the Military Academy Founder's Day dinner at Ft. Benning, Ga., on 17 March. General Crawford, 72, retired in 1946. He was an instructor in mathematics and mechanics at the Military Academy from 1914 to 1918 and 1920 to 1924 and graduate manager of athletics from 1916 to 1918.

Col. Benjamin D. Beach, USA-Ret., has joined the Vector Manufacturing Company, Southampton, Pa., as Director of Planning. His most recent assignment was Head of the Program Management Branch in Ordnance R&D at the Department of the Army in Washington. Before that, he served as Senior Ordnance Advisor to the Staff of the Korean Army and as Head of the Field Service Division and the National Procurement Division for the Army's Rocket and Guided Missile Center at Huntsville, Ala.

Col. Charles P. Bellican, USA-Ret., has been appointed by the Decker Corporation, Bala Cynwyd, Pa., a pioneer in the research and development of electronics and medical physics, as Vice President in charge of Plans and Programming. A USMA '33 graduate, he served as a staff member of the CoS Joint Staff prior to his retirement in 1954. Formerly a management consultant to industry and government, Colonel Bellican will head the Decker Corporation's Washington Division.

Chaplain (Colonel) Robert S. Hall, USA-Ret., First Chaplain of the Citadel, Charleston, S. C., will be guest speaker at the Easter Sunrise Service at Fort Hamilton, Brooklyn, N. Y., Sunday, 2 April at 6 a.m.

Capt. Lawrence Smith, USN-Ret., formerly Assistant to the Vice President, Production, has been appointed Assistant to the Executive Vice President at the Carling Brewing Company, Cleveland, Ian R. Dowie, President, has announced. He was formerly Commanding Officer of the Navy Finance Center in Cleveland. Captain Smith, USNA '32, received a Master of Science Degree from the Lowell, Mass., Technological Institute and took special courses at the Industrial College for the Armed Forces in Washington, D. C. He is president of the Cleveland Chapter of the Naval Alumni Association.

Lt. Col. Sidney G. Harris, USAF-Ret., has rejoined the Joseph Dixon Crucible Co., Jersey City, N. J.

Captain Ralph S. Barnaby, USN-Ret., of 2107 Chancellor St., Philadelphia, a staff member of The Franklin Institute has been named Manager of Project Development of The Franklin Institute Laboratories for Research and Development. He will represent the Institute's research and development staff in organizing and initiating new research pro-

grams for both industrial firms and government agencies. Last November, Captain Barnaby, who was the Navy's first glider pilot, was designated an "Elder Statesman of Aviation" by the National Aeronautic Association.

Lt. Col. Vincent A. Caringola, USA-Ret., formerly with the Operations, Plans and Training Section of CONARC, Ft. Monroe, Va., his wife, Mary, and their two children, Anita, 7, and Robert, 3, will remain in the Hampton-Newport News area, while making retirement plans.

RAdm. Andrew B. Mack, USN-Ret., is the new President of the Army and Navy Club of New York, 4 West 43d Street.

Admiral Mack, USNA '17, is Project Manager and Marina Consultant of Frederic R. Harris, Inc. Other officers elected are Lt. Col. John Purdon, USAF, First Vice-President; Capt. Robert G. Burke, USNR, Second Vice-President; Capt. David J. Melville, AF-Ret., Secretary; and Col. John R. Caldwell, USA-Ret., Treasurer.

The Army and Navy Club of New York shares quarters with the Columbia University Club.

Others elected at this meeting were the following Governors: Maj. Norman Ramsey, AF-Ret., RAdm. William S. Campbell, USN-Ret., Col. Henry L. Davison, USA, Col. Robert E. Harroff, USAF, Lt. Col. Leslie B. Carpenter, USA-Ret., and Brig. Gen. Paul S. Zuckerman, USAF-Ret.

Maj. George T. Hunt, USA-Ret., has been named European manager of International Sea Van, Inc. (ISV), division of Atlas Van-Lines, Inc. He will have offices in Lausanne, Switzerland.

Capt. Zack H. Rinks, AUS-Ret., 133 Dennis Drive, Forest Park, Ga., is Chief Inspector for that city.

PL 810 Retirements

The Army has placed the following named National Guard and Reserve officers on the retired list upon their attainment of age 60 and completion of at least 20 years creditable service as provided under Title III PL 810, 80th Congress:

Major General	
Harrison, W H, Jr, NG	
Colonel	
Huntsman, G R	Shober, F W, NG
Gibson, E W	Ryan, C F
Jones, C L	Wiggins, E C
Dreyer, C H, NG	Baker, C D
Lewis, H J, Jr	Jackson, H W
Kennedy, John M, 3d	Trask, H C
Bender, W H	
Lt. Colonel	
Howarth, W F	Hall, N B
Ray, P J	William, R E
Perry, M E	Kimball, J W
Batchelor, W P, Jr	Campbell, E S
Burton, W J	Peppin, H C
Trop, W	Lipsky, A A
Smith, E M	Overton, R H
Hannah, P D	Young, C E
Young, J W	Becker, W
Farrell, J	DeKruyff, R D
Stevens, J B	Rogers, R L
Hufford, E W	Eliason, E J
Flowers, J F	
Major	
Middleton, F V	Moffitt, R E
Yauger, A J	Herman, R E
Bell, C V	Town, E A
Plodowski, W	Conn, H G
Captain	
Ide, H W	Clayton, H O
Glasgow, W R	O'Connor, J F
Martin, Paul	
Chief Warrant Officer	
Yuhas, J J, NG	
Warrant Officers	
Earl, Duncan D	

The following named Master Sergeants are also retired under PL 810:
Gottlieb, N M, NG Savard, W F, NG
Stephens, E M, NG

Westinghouse Honors M/G Albert Boyd

Maj. Gen. Albert Boyd, USAF-Ret., Westinghouse Electric Corporation Vice President and General Manager of the Defense Products Divisions, has been honored with the highest award the company bestows on its employees, the Order of Merit.

At a ceremony at the company's Air Arm Division in Baltimore, E. V. Huggins, Vice President and Chairman of the Executive Committee of Westinghouse, presented the award to General Boyd with the following citation:

"For his vision and leadership which have inspired throughout Westinghouse a better understanding of defense and space problems; for the ability to motivate and inspire his associates to maximum effort and cooperation in achieving corporate and national objectives, and for his marshalling of the Company's many diverse activities into effective projects reflecting its total corporate capabilities in the defense of the United States."

General Boyd, well known for his

knowledge of aircraft and airborne equipment, flight test techniques and training methods, retired from the Force in 1957 after 30 years service.

General and Mrs. Boyd live at 217 Coronet Drive, North Linthicum, Md.

Col. Barthelmess Retires

Col. Karl T. Barthelmess, Commander of the Maintenance Group at the Wright Air Development Division, has retired at Wright-Patterson AFB, Ohio.

Born in Germany 25 March, 1911 he became a U. S. citizen in 1930 and entered Service June 1933 and has been on active duty since May 1939.

He is the holder of the Silver Star Medal with one oak leaf cluster; the DFC; Bronze Star Medal and the Air Medal with six oak leaf clusters.

"Dusty" Hight Joins Hiller

A. D. "Dusty" Hight has joined Hiller Aircraft Corporation as Eastern Regional Sales Manager, it is announced by A. W. B. Vincent, Vice President Sales.

Mr. Hight was formerly Head of Industrial Sales for the Helicopter Division of Sikorsky Aircraft. He will be based at Hiller's Washington, D. C. office, where his responsibilities will include commercial sales in the Eastern U. S., and liaison with foreign military attaches and missions in Washington.

U. K. Will Get SD-1 Drones

Radioplane Division of Northrop Corporation is producing a quantity of SD-1 Combat Surveillance equipment including 32 SD-1 drones and related support equipment, for delivery in May to the United Kingdom.

The highly mobile SD-1 is operational with U. S. Army field units in the U. S. and overseas. It may be quickly positioned and zero-length launched in rough terrain from a camouflaged position and can perform day or night photo intelligence and reconnaissance missions.

ORDERS

Every issue of The JOURNAL brings its subscribers complete Army, Navy, Air Force, Marine, Coast Guard Orders—as promptly as they are reported directly to us for publication.

This is just one more illustration of outstanding and authoritative JOURNAL service . . . another sound reason for taking a personal subscription and keeping abreast and ahead of the developments affecting your career and your family's welfare. Look now in this issue of The JOURNAL. Note its many features. Then, while this reminder is before you . . .

Fourth Star Seen Certain For L/G Schriever; Maj. Gen. Estes May Win Third In New Slot

THE reorganization of Air Force missile and space functions (see Page 11) is certain to be followed by the advancement of Lt. Gen. Bernard A. Schriever, head of the new Air Force Systems Command, to four-star rank.

That would give him equal rank with General S. E. Anderson, who heads the Logistics Command.

General Schriever has been ARDC Commander, and General Anderson has been AMC Commander.

Maj. Gen. Howell M. Estes, jr., Assistant Deputy CofS (Operations) at USAF Headquarters, will be Deputy Commander for Aerospace Systems, and will

be responsible for the Ballistic Systems Division, under Maj. Gen. Thomas P. Gerrity, who has been Commander of the AMB Ballistic Missile Center, and Maj. Gen. Osmond J. Ritland, Commander Space Systems Division who has been in command of ARDC's Ballistic Missile Division.

It would appear likely that General Estes, 46, USMA '36, is in line for advancement to three-star rank. He holds temporary rank as a major general from 24 October 1956.

General Estes participated in the atomic test program in the Pacific from 1951 to 1954, then became Director of

Weapon Systems Operations of the Wright Air Development Center of ARDC at Wright-Patterson AFB, Ohio, later becoming Director of Systems Management for ARDC Headquarters.

Here is a complete rundown on the officers who figure in the Air Force Systems Command activation:

Maj. Gen. Howell M. Estes, jr., Assistant Deputy CofS (Operations), Washington, D. C., will be Deputy Commander for Aerospace Systems.

Maj. Gen. Joseph R. Holzapple, Commander, Wright Air Development Division, ARDC, Wright-Patterson AFB, Ohio, will be Assistant Deputy Com-

mander for Aerospace Systems.

Maj. Gen. Clyde H. Mitchell, Commander, AMC Electronics Systems Center, Laurence G. Hanscom Field, Bedford, Mass., will be Deputy CofS, Materiel, Air Force Systems Command.

Maj. Gen. Thomas P. Gerrity, Commander, AMC Ballistic Missile Center, Los Angeles, will be Commander, Ballistic Systems Division.

Maj. Gen. Osmond J. Ritland, Commander, Air Force Ballistic Missile Division, ARDC, Los Angeles, will be Commander, Space Systems Division.

Brig. Gen. Robert E. Greer, Vice Commander for Satellite Systems, AFBMD, ARDC, El Segundo, Calif., will be Deputy Commander, Space Systems Division.

Maj. Gen. Waymond A. Davis, Commander, AMC Aeronautical Systems Center, Wright-Patterson AFB, Ohio, will be Commander, Aeronautical Systems Division.

Maj. Gen. Kenneth P. Bergquist, Commander, Air Force Command and Control Development Division, ARDC, Laurence G. Hanscom Field, Bedford, Mass., will be Commander, Electronics Systems Division.

BERGQUIST DRIVE

Col. Ehring Lloyd Bergquist, USAF (MC), who was killed in an aircraft accident 12 Feb. 1949, at Offutt AFB, Neb., has been honored at the USAF Hospital, Lackland AFB, Tex., by the designation of a street as "Bergquist Drive."

The street leads from the main thoroughfare intersecting Lackland AFB to the hospital which is a tenant organization on this huge training installation.

Col. Bergquist at the time of his death was Command Surgeon for SAC at Offutt AFB, Neb.

"Bergquist Drive" will serve as the main route of entry for visitors during the official dedication of the 1,000-bed hospital's new 500-bed wing on 25 March, when Under Secretary Joseph V. Charyk will make his first official visit to the San Antonio area.

Space Directive

From page 18—

heard. Each Service and other component of the Department of Defense entitled to be heard on the subject of space research and development was given ample opportunity to concur or comment upon the proposed step. Each and every component availed themselves of that opportunity. Secretary McNamara and I considered all points of view before arriving at the final decision.

A major criticism of the Department of Defense, which has been made for many years both in the Congress and elsewhere, has been the slowness of the decision-making process within the Department.

Prompt Decisions Imperative

Secretary McNamara and I believe that it is imperative, if we are to have a defense adequate to meet the needs of this nuclear and space age, that decisions be made as promptly as possible. We do not feel that important decisions affecting the national security of the United States can be deferred pending attempts to work out a *modus vivendi* which will be satisfactory and pleasing to everyone. Too often such efforts do not resolve our problems but rather intensify them in at least two ways. First, during long periods of deliberation, independent actions may be taken by many of the participants which may, in turn, compromise the final policy when it is promulgated. Alternately, a moratorium on all actions during the period of prolonged deliberation may mean that some very necessary decisions are held too long in abeyance. Second, long and involved deliberations on the details of broad policy matters inevitably tend to exacerbate differences of opinion.

The Siege Lines at Vicksburg, Mississippi, May 19, 1863. The months-long determination by both armies at Vicksburg epitomizes the valor of the epic conflict throughout—from the bombardment at Charleston, to the peace at Appomattox.

...in the finest tradition of service

1861-1961 . . . and we solemnly join the march of those who observe with reverence the Centennial of the war that claimed more American lives than any conflict in our history. The founders of Federal Services and many of our present associates were to wear the uniforms of later years; today we are privileged to serve, in the field of financing, those who wear the uniforms of a century later. It is a time for muffled drums and silent cadence as we gather in Commemoration—

*On Fame's eternal camping-ground
Their silent tents are spread,
And Glory guards, with solemn round,
The bivouac of the dead.*
